Review of Operations

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our consolidated and nonconsolidated interim financial statements prepared in accordance with accounting principles generally accepted in Japan ("Japanese GAAP") for banks, including the notes to those interim financial statements, included elsewhere in this interim report. Unless otherwise indicated, the financial information in the following discussion is based on our interim consolidated financial statements.

In this section, except where the context indicates otherwise, "we" or "our" means Shinsei Bank, Limited, its subsidiaries and its affiliates accounted for by the equity method, and "Shinsei" or "the Bank" refers to Shinsei Bank on a nonconsolidated basis.

Financial and operational data that are stated in multiples of ¥0.1 billion have been truncated. All percentages have been rounded to the nearest 0.1% unless otherwise noted.

#### **OVERVIEW**

Shinsei Bank, Limited is a leading diversified Japanese financial institution providing a full range of financial products and services to both institutional and individual customers. Our business is organized around three business groups: the Institutional Group, the Global Markets Group and the Individual Group:

- In the institutional business, in order to provide financial products and services that meet institutional customer needs through a strategic, as well as systematic business promotion structure, the Institutional Group focuses primarily on corporate and public sector finance and advisory business, while the Global Markets Group concentrates on financial markets business and serving financial institution clients. The Institutional Group consists of business undertaken directly by the Bank and Showa Leasing Co., Ltd. (Showa Leasing).
- The Individual Group consists of the retail banking business and the consumer finance business. In the retail banking business, we are continuing to work to fulfill customer needs as well as improve the convenience of our services. In its consumer finance business, we offer unsecured personal loans through the Bank, Shinsei Financial Co., Ltd. (Shinsei Financial) and SHINKI Co., Ltd. (SHINKI), in addition to providing installment sales credit, credit card and settlement services through APLUS FINANCIAL Co., Ltd. (APLUS FINANCIAL).

#### **FINANCIAL SUMMARY FOR** THE SIX MONTHS ENDED SEPTEMBER 30, 2014

In the six months ended September 30, 2014 (April 1, 2014 to September 30, 2014), Shinsei Bank Group posted a consolidated net income of ¥28.9 billion, an increase of ¥1.6 billion compared to ¥27.2 billion recorded for the six months ended September 30, 2013. This is an approximate 53% progression toward the ¥55.0 billion full-year net income forecast and is in line with the achievement of the target.

Total revenue for the six months ended September 30, 2014 was ¥111.1 billion. Of this amount, net interest income was ¥60.5 billion, an increase of ¥5.5 billion compared to ¥55.0 billion for the six months ended September 30, 2013. This increase was due to a reduction in funding costs as well as an increase in revenue as a result of the growth of the consumer finance business loan balance offsetting the sluggish growth of operating assets in the Institutional Group. Noninterest income was ¥50.5 billion for the six months ended September 30, 2014, an increase of ¥5.3 billion compared to ¥45.2 billion for the six months ended September 30, 2013. This was a result of the posting of gains on the sale of Japanese national government bonds ("JGBs") for the six months ended September 30, 2014, while having recorded losses for the six months ended September 30, 2013 on the sale of JGBs made in an effort to avoid interest rate risk arising from major fluctuations in the market. Additionally, strong revenue growth in markets related transactions also contributed to the performance.

#### **OVERVIEW (CONTINUED)**

General and administrative expenses, while operational efficiency continued to be promoted, due to the allocation of management resources in areas such as increasing personnel and advertising in order to grow our business base, increased to ¥71.1 billion for the six months ended September 30, 2014 from ¥67.0 billion recorded for the six months ended September 30, 2013.

Net credit costs of ¥5.0 billion were recorded for the six months ended September 30, 2014, an increase compared to costs of ¥0.3 billion for the six months ended September 30, 2013. This was a result of factors such as the provisioning of general reserves for loan losses in line with the level of growth of the loan balance of the Bank's consumer finance business.

The balance of loans and bills discounted was ¥4,338.6 billion as of September 30, 2014, an increase of ¥18.7 billion from ¥4,319.8 billion as of March 31, 2014. Loans to institutional customers shrank slightly as a result of factors such as collections of loans and fierce competition to meet loan demand from customers. In loans to individuals, housing loans continued to steadily increase, and the consumer finance loan balance continued to grow compared to the previous fiscal year. As a result, the overall balance of loans and bills discounted of the Bank grew.

A net interest margin of 2.28% was recorded for the six months ended September 30, 2014, up significantly from 2.03% recorded for the six months ended September 30, 2013. This was due to a significant reduction in the rate on deposits, including negotiable certificates of deposits, resulting from the maturation of high interest rate time deposits made in previous years. Additionally, the yield on interest-earning assets, and in particular, securities, increased compared to the six months ended September 30, 2013 as the result of an increase in dividend income on securities in the Institutional Group and the Global Markets Group. It should be noted that the yield on loans and bills discounted on interest-earning assets was largely at the same level as that in the six months ended September 30, 2013.

Regarding Basel III domestic standard capital ratios (grandfathering basis), total core capital decreased as a result of the reduction in core capital due to the redemption of perpetual preferred securities exceeding the positive impacts of the accumulation of profits, as well as a reduction in expected losses exceeding eligible provisions reserved. On the other hand, risk assets decreased significantly due to factors such as collections of large claims. As a result, the consolidated core capital adequacy ratio rose from 13.58% as of March 31, 2014 to 13.81% as of September 30, 2014. Additionally, our Basel III international standard Common Equity Tier 1 Capital Ratio (fully loaded basis) increased from 9.2% as of March 31, 2014 to 10.6% as of September 30, 2014.

The balance of nonperforming loans under the Financial Revitalization Law (nonconsolidated basis) as of September 30, 2014 was ¥110.2 billion, decreased by ¥54.5 billion during the six months ended September 30, 2014. In addition, the proportion of nonperforming claims to the overall loan balance improved significantly from 3.81% as of March 31, 2014 to 2.61% as of September 30, 2014.

#### SIGNIFICANT EVENTS

#### ISSUANCE OF UNSECURED CORPORATE BONDS

On July 18, 2014, Shinsei Bank issued ¥6.0 billion of unsecured corporate bonds with inter-bond pari passu clause.

| Reconciliation of return on equity to return on tangible equity  |     |       |
| Return on equity   | 1   | 8.6%  |
| Effect of goodwill and intangible assets acquired in business combinations                                     | •   | 1.7%  |
| Return on tangible equity <sup>(2)</sup>   | 10  | 0.3%  |

Notes: (1) The cash basis net income is calculated by excluding amortization and impairment of goodwill and intangible assets acquired in business combinations, net of tax benefit, from net income under Japanese GAAP. (2) Net income excludes amortization of goodwill and intangible assets acquired in business combinations, net of tax benefit. Average equity excludes goodwill and intangible assets acquired in business combinations, net of associated deferred tax liability.

#### **NET INTEREST INCOME**

Net interest income of ¥60.5 billion was recorded for the six months ended September 30, 2014, increased ¥5.5 billion from ¥55.0 billion recorded for the six months ended September 30, 2013. While continuing efforts in the institutional business to provide funding to customers continued to be met with fierce competition, and the existing institutional loan balance declined due to factors such as collections of

loans, in the individual business, net interest income improved primarily due to a reduction in funding costs as a result of the maturation of campaign yen denominated time deposits made in the past as well as an increase in revenue corresponding to the growth of the loan balance of the consumer finance business, resulting in the overall growth of net interest income.

#### **NET REVENUE ON INTEREST-EARNING ASSETS**

The table below shows the principal components of net revenue on interest-earning assets.

TABLE 1. INTEREST-EARNING ASSETS AND INTEREST-BEARING LIABILITIES (CONSOLIDATED)

Notes: (1) Other interest-earning assets and other interest-bearing liabilities include interest swaps and funding swaps. (2) Represents a simple average of the balance as of the beginning and the end of the presented period

Net revenue on interest-earning assets includes net interest income as well as revenue earned on lease receivables, leased investment assets and installment receivables. However, while we consider income on lease transactions and installment receivables to be a component of interest income, Japanese GAAP does not recognize income on lease transactions and installment receivables as a component of net interest income. Therefore, in our interim consolidated statements of income, income on lease transactions and installment receivables is

reported in net other business income in accordance with Japanese GAAP.

Net interest margin of 2.28% was recorded for the six months ended September 30, 2014, compared to 2.03% for the six months ended September 30, 2013. This increase was mainly due to a significant reduction in the rate on deposits, including negotiable certificates of deposits, from 0.39% to 0.20% as a result of the maturation of a portion of high interest rate time deposits, in addition to an increase in the yield on

<sup>(3)</sup> n.m. is not meaningful.

<sup>(4)</sup> Percentages have been rounded from the third decimal place.

securities from 0.85% to 0.92% as a result of an increase in securities related dividend income.

Net interest income including leasing and installment accounts receivable for the six months ended September 30, 2014 was ¥79.5 billion, increased from ¥72.9 billion for the six months ended September 30, 2013. This was the result of the total expense on interest-bearing liabilities decreasing from ¥17.5 billion for the six months ended September 30, 2013 to ¥11.4 billion for the six months ended September 30, 2014, in addition to total revenue on interest earning assets increasing from ¥90.4 billion in the six months ended September 30, 2013 to ¥91.0 billion in the six months ended September 30, 2014.

#### **NET FEES AND COMMISSIONS**

Net fees and commissions consists mainly of fee income from nonrecourse finance on domestic real estate, servicing fee income in Specialty Finance and Principal Transactions, guarantee and other businesses operated by consumer finance subsidiaries, and fee income on the sales of mutual funds and insurance products. Net fees and commissions of ¥10.8 billion was recorded for the six months ended September 30, 2014, decreased from ¥11.6 billion recorded for the six months ended September 30, 2013. This decrease was due primarily to a reduction in fee income in the Institutional Group, despite the recording of strong fee income in the guarantee related business of the Bank's consumer finance business.

#### **NET TRADING INCOME**

The table below shows the principal components of net trading income.

| Net other business income before income on lease transactions       |  |  |                    |
| and installment receivables, net                                    | 15.2                                   | 8.7                                    | 6.5                |
| Income on lease transactions and installment receivables, net       | 18.9                                   | 17.8                                   | 1.0                |
| Net other business income   | ¥ 34.1                                 | ¥ 26.5                                 | ¥ 7.6              |
|   |  |  |                    |

Net other business income of ¥34.1 billion was recorded for the six months ended September 30, 2014 as compared to ¥26.5 billion recorded for the six months ended September 30, 2013. This improvement was due to factors such as an improvement in revenue from markets related transactions, as well as the recording of firm revenues in the Bank's ALM operations in the six months ended September 30, 2014 on the sale of JGBs, whereas in the six months ended September 30, 2013 the sale of JGBs undertaken in order to avoid interest rate risk resulting from volatility in the market resulted in the recording of losses.

#### **TOTAL REVENUE**

As a result of the preceding, total revenue in the six months September 30, 2014 was ¥111.1 billion, as compared with ¥100.2 billion recorded for the six months ended September 30, 2013.

Dillions of yor

#### **GENERAL AND ADMINISTRATIVE EXPENSES**

The table below sets forth the principal components of our general and administrative expenses.

TABLE 4. GENERAL AND ADMINISTRATIVE EXPENSES (CONSOLIDATED)

| Other general and administrative expenses  | 11.4                                   | 10.6                                   | 0.8                |
| General and administrative expenses  | 71.1                                   | 67.0                                   | 4.1                |
| Amortization of goodwill and intangible assets acquired in business combinations | 4.5                                    | 5.1                                    | (0.5)              |
| Total general and administrative expenses  | ¥ 75.7                                 | ¥ 72.2                                 | ¥ 3.5              |

General and administrative expenses excluding amortization of goodwill and intangible assets acquired in business combinations of ¥71.1 billion were recorded for the six months ended September 30, 2014, increased from ¥67.0 billion recorded for the six months ended September 30, 2013. This was a result of the investment of management resources into relevant business areas in order to be able to smoothly expand our customer base further and to enhance our profitability, both of which are major targets established in the Second Medium-Term Management Plan.

Personnel expenses of ¥29.1 billion were recorded for the six months ended September 30, 2014, increased from ¥27.4 billion recorded for the six months ended September 30, 2013. This was due to the increase of personnel in key business areas in order to expand our customer base and enhance our profitability.

Nonpersonnel expenses of ¥42.0 billion were recorded for the six months ended September 30, 2014, increased from ¥39.5 billion recorded for the six months ended September 30, 2013. While we continue to promote rationalization of expenses across all business lines, this increase was the result of simultaneously allocating necessary investment in order to grow our business base. Of the total nonpersonnel expenses, premises expenses were ¥9.5 billion for the six months ended September 30, 2014, slightly declined compared to the six months ended September 30, 2013, as efforts to streamline expenses were continued; technology and data processing expenses were ¥9.3 billion for the six months ended September 30, 2014, increased from ¥8.8 billion recorded in the six months ended September 30, 2013, as investments aimed at stabilizing our information technology infrastructure were made; and advertising expenses were ¥5.4 billion for the six months ended September 30, 2014, increased from ¥5.0 billion for the six months ended September 30, 2013, as we proactively expanded advertising activities in order to expand our customer base.

Consumption and property taxes of ¥4.0 billion were recorded for the six months ended September 30, 2014, increased primarily due to the consumption tax hike from ¥3.2 billion recorded for the six months ended September 30, 2013.

Deposit insurance premium expenses of ¥2.1 billion were recorded for the six months ended September 30, 2014, almost at the same level recorded for the six months ended September 30, 2013. This was due to the average balance of deposits, etc. that form the basis for calculating our deposit insurance premium not fluctuating drastically and the insurance premium rate remaining more or less unchanged.

Other general and administrative expenses of ¥11.4 billion were recorded for the six months ended September 30, 2014, an increase from ¥10.6 billion recorded for the six months ended September 30, 2013, due to an increase in payments to experts as we actively expand our business and as outsourcing expenses increased as a result of efforts to stabilize operation of our information technology systems.

#### AMORTIZATION OF GOODWILL AND INTANGIBLE **ASSETS ACQUIRED IN BUSINESS COMBINATIONS**

Amortization of goodwill and intangible assets acquired in business combinations associated with the acquisition of consumer finance and commercial finance companies totaled ¥4.5 billion for the six months ended September 30, 2014, down from ¥5.1 billion recorded for the six months ended September 30, 2013. This reduction is mainly attributable to the sum-of-the-years digits method applied for amortization of goodwill and intangible assets acquired in business combinations related to Shinsei Financial. It should be noted that full impairment of goodwill and intangible assets for APLUS FINANCIAL was taken as of March 31, 2010, and amortization of goodwill and intangible assets acquired in business combinations recorded for APLUS FINAN-CIAL of ¥0.4 billion for the six months ended September 30, 2014 is related to the amortization of goodwill for Zen-Nichi Shinpan Co., Ltd., a subsidiary of APLUS FINANCIAL.

The principal components of net credit costs are provisions or reversals of reserves for loan losses. In accordance with Japanese GAAP, Shinsei maintains general and specific reserves for loan losses, a reserve for loans to restructuring countries, as well as a specific reserve for other credit losses. Certain subsidiaries of the Bank, particularly Shinsei Financial, APLUS FINANCIAL, SHINKI, and Showa Leasing also maintain general and specific reserves for loan losses.

Net credit costs of ¥5.0 billion were recorded for the six

months ended September 30, 2014, as compared to net credit costs of ¥0.3 billion for the six months ended September 30, 2013. While a significant improvement in the provisioning of reserves for loan losses due to the disposal of nonperforming loans and improvements in credit quality of loans was observed in the six months ended September 30, 2013, provisions of general reserves for loan losses increased in the six months ended September 30, 2014, primarily due to an increase in loans at the Bank's consumer finance business.

For the six months ended September 30, 2014, recoveries of written-off claims were ¥4.1 billion, compared to ¥3.9 billion recorded for the six months ended September 30, 2013. The ¥4.1 billion of recoveries of written-off claims recorded in the six months ended September 30, 2014 included ¥2.4 billion from Shinsei Financial, ¥0.5 billion from SHINKI and ¥1.0 billion from Shinsei Bank (nonconsolidated basis). It should be noted that with the exclusion of recoveries of written off claims, net credit costs for the six months ended September 30, 2014 were ¥9.1 billion, compared to ¥4.3 billion recorded for the six months ended September 30, 2013.

#### **OTHER GAINS (LOSSES), NET**

Other gains of ¥1.9 billion were recorded for the six months ended September 30, 2014, as compared to losses of ¥0.1 billion recorded for the six months ended September 30, 2013.

### INCOME BEFORE INCOME TAXES AND MINORITY INTERESTS

As a result of the preceding, income before taxes and minority interests were ¥32.2 billion for the six months ended September 30, 2014, as compared to ¥27.6 billion recorded for the six months ended September 30, 2013.

#### **INCOME TAXES (BENEFIT)**

Regarding the sum of current and deferred income taxes, a net expense of ¥2.1 billion was recorded for the six months ended September 30, 2014, as compared to a net benefit of ¥1.2 billion for the six months ended September 30, 2013.

### MINORITY INTERESTS IN NET INCOME OF SUBSIDIARIES

Minority interests in net income of subsidiaries were ¥1.1 billion for the six months ended September 30, 2014. Minority interests in net income of subsidiaries largely reflect dividends accrued on perpetual preferred securities issued by Shinsei Bank's subsidiaries, and minority interests in the net income of other consolidated subsidiaries. Minority interests in net income of subsidiaries for the six months ended September 30, 2013 were ¥1.6 billion.

#### TABLE 8. MINORITY INTERESTS IN NET INCOME OF SUBSIDIARIES (CONSOLIDATED)

|  | Billions of yen                        |  |                    |  |

#### **NET INCOME**

As a result of the preceding Shinsei Bank recognized a consolidated net income of ¥28.9 billion for the six months ended September 30, 2014, as compared to consolidated net income of ¥27.2 billion recorded for the six months ended September 30, 2013.

Additionally, consolidated cash basis net income for the six months ended September 30, 2014 was ¥32.9 billion, compared to ¥31.7 billion recorded for the six months ended September 30, 2013.

It should be noted that cash basis net income is calculated by excluding amortization and impairment of goodwill and intangible assets acquired in business combinations, net of tax benefit, from net income in accordance with Japanese GAAP.

## RECONCILIATION FROM REPORTED-BASIS RESULTS TO OPERATING-BASIS RESULTS

Shinsei Bank, in addition to analyzing its results of operations in the format used for our financial statements, which we refer to as the "reported-basis," also performs business management utilizing an "operating-basis" assessment of individual business lines in the evaluation of achieved results against targeted goals. Operating-basis results are generally calculated by adjusting the reported-basis results for amortization of goodwill and intangible assets acquired in business combinations, certain revenue items, amortization of net actuarial losses, and lump-sum payments. In general, operating-basis results represent what the Bank considers to be "core" business results and are in accordance with Japanese GAAP at the net income (loss) level. The following summary table is a reconciliation between our reported-basis and operating-basis results.

TABLE 9. RECONCILIATION FROM REPORTED-BASIS RESULTS TO OPERATING-BASIS RESULTS

Notes: (1) Reclassifications consist principally of adjustments relating to lump-sum compensation and amortization of net actuarial gains or losses from general and administrative expenses to other gains (losses), net. (2) Amortization of goodwill and intangible assets acquired in business combinations associated with acquisitions of companies is reclassified under ordinary business profit after net credit costs. (3) Amortization of goodwill and intangible assets acquired in business combinations associated with partial acquisitions of business is classified to general and administrative expenses.

#### **BUSINESS LINES RESULTS**

Management monitors the performance of our business lines on an operating-basis. The following business line discussion covers the operating-basis ordinary business profit (loss) after net credit costs (recoveries).

TABLE 10. OPERATING-BASIS ORDINARY BUSINESS PROFIT (LOSS) AFTER NET CREDIT COSTS (RECOVERIES) BY BUSINESS LINE (CONSOLIDATED)

Note: (1) Results for Business Management Division is included in "Institutional Business Sub-Group—Institutional Business," formerly shown in Others in line with the organizational change on April 1, 2014.

The Institutional Group business recorded total revenue of ¥34.0 billion for the six months ended September 30, 2014, a decrease compared to ¥35.9 billion for the six months ended September 30, 2013. Net interest income was ¥14.5 billion for the six months ended September 30, 2014, compared to ¥14.8 billion for the six months ended September 30, 2013. Noninterest income was ¥19.5 billion for the six months ended September 30, 2014, compared to ¥21.0 billion for the six months ended September 30, 2013. Initiatives aimed at expanding the customer base and strengthening profitability continued to be promoted, and while strong income was recorded in domestic credit trading, as a result of the absence of significant real estate related income and income on private equity which was recorded in the six months ended September 30, 2013, total revenue declined compared to the six months ended September 30, 2013.

In the Institutional Business under the Institutional Business Sub-Group, total revenue was ¥7.1 billion for the six months ended September 30, 2014, a strong performance compared to ¥6.8 billion for the six months ended September 30, 2013. Efforts continued to be made to identify new outlets for corporate lending in order to further expand our client base, and due in part to the recording of significant dividend income on securities, total revenue in the six months ended September 30, 2014 increased compared to the six months ended September 30, 2013. Additionally, Structured Finance under the Institutional Business Sub-Group recorded total revenue of ¥10.5 billion for the six months ended September 30, 2014, as compared to ¥12.8 billion for the six months ended September 30, 2013. In Specialty Finance, while overall business performance was strong, due to factors such as the absence of significant real estate related income which was recognized in the six months ended September 30, 2013, total revenue for the six months ended September 30, 2014 declined compared to the six months ended September 30, 2013.

The Principal Transactions Sub-Group recorded total revenue of ¥9.3 billion for the six months ended September 30, 2014, compared to ¥9.6 billion for the six months ended September 30, 2013. While the performance of domestic credit trading operations continued to be strong, and some large revenues were recorded, total revenue declined compared to the six months ended September 30, 2013 due to factors such as the absence of capital gains on sales of private equity investments in the six months ended September 30, 2014, which were recorded in the six months ended September 30, 2013.

Total revenue at Others of the Institutional Group was a gain of ¥0.7 billion for the six months ended September 30, 2014, compared to a loss of ¥0.0 billion (¥97 million) for the six months ended September 30, 2013. This is the result of improvement in income related to equity method investments.

General and administrative expenses in the Institutional Group were ¥13.4 billion for the six months ended September 30, 2014, compared to ¥12.1 billion for the six months ended September 30, 2013. While the Group continued efforts to improve efficiency in all business lines, expenses increased due to the investment of management resources in order to expand the business base.

Net credit recoveries of ¥2.0 billion were recorded for the six months ended September 30, 2014, as compared to net credit recoveries of ¥2.8 billion for the six months ended September 30, 2013. In the six months ended September 30, 2014, there were some reversals of reserve for loan losses due to the sale of nonperforming loans as well as improvements in creditworthiness of some accounts, whereas in the six months ended September 30, 2013 gains on the disposal of loans were recorded.

As a result of the preceding, the Institutional Group recorded an ordinary business profit after net credit costs of ¥22.7 billion for the six months ended September 30, 2014, compared to ¥26.6 billion recorded for the six months ended September 30, 2013.

Showa Leasing recorded an ordinary business profit after net credit costs of ¥3.7 billion for the six months ended September 30, 2014, an increase as compared to ¥4.8 billion recorded for the six months ended September 30, 2013. Total revenue was ¥6.2 billion for the six months ended September 30, 2014, compared to ¥6.7 billion recorded for the six months ended September 30, 2013. This performance was primarily due to less lease related fee income being recorded compared to the six months ended September 30, 2013. Additionally, net credit recoveries of ¥1.6 billion were recorded for the six months ended September 30, 2014 due to improvements in the credit quality of loans and the progression of collections. This is relatively unchanged compared to net credit recoveries of ¥1.8 billion recorded for the six months ended September 30, 2013.

#### **GLOBAL MARKETS GROUP**

The Global Markets Group consists of: 1) Financial Institutions Sub-Group which provides financial products and services for financial institutions, 2) Markets Sub-Group which deals with foreign exchanges, derivatives and other capital markets business, and 3) Others which includes the asset management, wealth management, and Shinsei Securities businesses.

| Ordinary business profit after net credit costs (recoveries)        | ¥ 3.1                                  | ¥ 0.8                                  | ¥ | 2.2             |  |

The Global Markets Group recorded total revenue of ¥7.6 billion for the six months ended September 30, 2014, compared to ¥5.2 billion for the six months ended September 30, 2013. The continued efforts by the Group to expand its customer base, as well as the development and provision of financial products that meet customers' needs, and the total volume of customer transactions and market related-transactions being strong, where the contributing factors in this increase in total revenue.

The Financial Institutions Sub-Group's total revenue for the six months ended September 30, 2014 was at the same level as ¥1.7 billion recorded for the six months ended September 30, 2013. This was the result of the Sub-Group's continued promotion of business alliances leveraging its well-developed network with financial institutions, in addition to striving to deepen transaction relationships through the provision of products that satisfy customers' needs.

The Markets Sub-Group recorded total revenue increased by ¥2.2 billion to ¥4.3 billion for the six months ended September 30, 2014, from ¥2.0 billion recorded for the six months ended September 30, 2013. This was the result of significant improvements in transaction volumes with customers and profitability of markets related transactions.

Total revenue at Others of the Global Markets Group increased to ¥1.5 billion for the six months ended September 30, 2014, from ¥1.4 billion recorded for the six months ended September 30, 2013.

The Global Markets Group recorded ¥4.6 billion of general and administrative expenses for the six months ended September 30, 2014, compared to ¥4.4 billion for the six months ended September 30, 2013. While the Group continued efforts to improve efficiency in all business lines, resources were invested in key business areas in order to rebuild the customer base, in addition to investments made in human resources, resulting in expenses increasing slightly as compared to the six months ended September 30, 2013.

The Global Markets Group recorded net credit recoveries of ¥0.0 billion (¥93 million) was recorded for the six months ended September 30, 2014, compared to net credit recoveries of ¥0.0 billion (¥46 million) was recorded for the six months ended September 30, 2013.

As a result of the preceding, the Global Markets Group recorded ¥3.1 billion of ordinary business profit after net credit costs for the six months ended September 30, 2014, compared to ¥0.8 billion recorded for the six months ended September 30, 2013.

#### **INDIVIDUAL GROUP**

The Individual Group consists of: 1) Retail Banking, 2) Shinsei Financial and Shinsei Bank Card Loan—Lake ("Shinsei Bank Lake"), 3) SHINKI, 4) APLUS FINANCIAL, and 5) Others, which includes Shinsei Property Finance Co., Ltd.

Notes: (1) Results for Shinsei Financial and Shinsei Bank Lake in the Lake business (started on October 1, 2011) are combined on a management accounting basis. (2) Includes Shinsei Property Finance and unallocated Consumer Finance Sub-Group financials.
(3) While results for SHINKI are reported as a part of the Shinsei Financial Business Segment, the results are presented separately in this table.

The Individual Group's recorded ordinary business profit after net credit costs of ¥7.9 billion for the six months ended September 30, 2014, compared to ¥10.8 billion recorded for the six months ended September 30, 2013.

#### **RETAIL BANKING**

In Retail Banking, total revenue of ¥14.3 billion was recorded for the six months ended September 30, 2014, compared to ¥16.8 billion recorded for the six months ended September 30, 2013. Net interest income totaled ¥11.5 billion for the six months ended September 30, 2014, compared to ¥12.7 billion for the six months ended September 30, 2013. The disbursement of new housing loans remained strong, resulting in a net increase in the loan balance, as well as an increase in revenue, however, net interest income from deposits including liquid deposits decreased due to a decline in market interest rates, and as a result, overall net interest income decreased compared to the six months ended September 30, 2013. Noninterest income, due to a reduction in revenue associated with the sale of investment products and an increase in ATM related fees, decreased to ¥2.7 billion for the six months ended September 30, 2014, as compared to ¥4.0 billion for the six months ended September 30, 2013.

General and administrative expenses of ¥16.9 billion were recorded for the six months ended September 30, 2014, an increase as compared to ¥16.1 billion recorded for the six months ended September 30, 2013. This increase was the result of the proactive implementation of measures aimed at smoothly carrying out the Second Medium-Term Management Plan, despite the implementation of various rationalization and efficiency measures, such as reviewing unit prices of advertising.

Net credit costs of ¥0.0 billion (¥81 million) were recorded for the six months ended September 30, 2014, compared to net credit costs of ¥0.1 billion recorded for the six months ended September 30, 2013. As a result of the preceding, ordinary business profit after net credit costs was a loss of ¥2.7 billion for the six months ended September 30, 2014, compared to a profit of ¥0.5 billion for the six months ended September 30, 2013.

#### SHINSEI FINANCIAL AND SHINSEI BANK LAKE

Including related consolidation adjustments, ordinary business profit after net credit costs of Shinsei Financial and Shinsei Bank Lake of ¥6.8 billion was recorded for the six months ended September 30, 2014, compared to ¥6.1 billion recorded for the six months ended September 30, 2013.

Total revenue of ¥23.6 billion was recorded for the six months ended September 30, 2014, compared to ¥18.8 billion recorded for the six months ended September 30, 2013, due primarily to the growth of the loan balance.

While we continued to engage in a phased tightening of credit standards as well as strengthening of collection capabilities, net credit costs of ¥3.1 billion were recorded for the six months ended September 30, 2014, as compared to net credit recoveries of ¥0.4 billion recorded for the six months ended September 30, 2013, due in part to an increase in the rate of growth of the loan balance during the six months ended September 30, 2014 compared to the six months ended September 30, 2013.

#### SHINKI

Including related consolidation adjustments, ordinary business profit after net credit costs of SHINKI of ¥0.3 billion was recorded for the six months ended September 30, 2014, compared to ¥0.7 billion recorded for the six months ended September 30, 2013.

#### **APLUS FINANCIAL**

Including related consolidation adjustments, ordinary business profit after net credit costs of APLUS FINANCIAL of ¥3.0 billion was recorded for the six months ended September 30, 2014, compared to ¥2.7 billion recorded for the six months ended September 30, 2013. Total revenue in the six months ended September 30, 2014 was ¥24.6 billion, increased from ¥23.4 billion recorded for the six months ended September 30, 2013. Of this, while net interest income decreased to ¥3.3 billion for the six months ended September 30, 2014, compared to ¥3.9 billion for the six months ended September 30, 2013, due to a reduction in the loan balance compared to the six months ended September 30, 2013, noninterest income increased to ¥21.3 billion recorded for the six months ended September 30, 2014, compared to ¥19.4 billion recorded for the six months ended September 30, 2013, as a result of a strong performance in the installment sales credit and settlement business. General and administrative expenses, while we have continued to pursue rationalization and efficiency in our business processes, increased to ¥18.0 billion recorded for the six months ended September 30, 2014, from ¥17.2 billion recorded for the six months ended September 30, 2013, due to an increase in expenses associated with the implementation of measures aimed at enhancing customer services. Additionally, net credit costs of ¥3.5 billion recorded for the six months ended September 30, 2014, compared to ¥3.3 billion recorded for the six months ended September 30, 2013.

The business results of Others includes profits and losses of Shinsei Property Finance and the Consumer Finance Sub-Group.

#### INTEREST REPAYMENT

Regarding reserves for losses on interest repayments, no additional reserves were made in the six months ended September 30, 2014, whereas additional reserves totaling ¥15.6 billion were made in the fiscal year ended March 31, 2014 based upon a revision of future additional interest repayment costs.

Shinsei Financial's usage of reserves for losses on interest repayments (interest repayment and related principal amortization) totaled was ¥19.0 billion for the six months ended September 30, 2014, compared to ¥2.2 billion for the six months ended September 30, 2013. This increase was the result of the additional provisioning of ¥175.0 billion of reserves of losses on interest repayments coinciding with the conclusion of the GE Japan, Ltd., indemnity for losses on interest repayments, and a subsequent expansion of claims covered through the reserves for losses on interest repayments. No additional recording or provisioning of reserves has taken place in the six months ended September 30, 2014, and the outstanding total balance of reserves for losses on interest repayments as of September 30, 2014 was ¥168.3 billion, compared to ¥187.3 billion as of March 31, 2014.

SHINKI's usage of reserves for losses on interest repayments (interest repayment and related principal amortization) totaled ¥2.1 billion for the six months ended September 30, 2014, compared to ¥2.4 billion for the six months ended September 30, 2013. No additional reserves were provisioned in the six months ended September 30, 2014, and the outstanding total balance of reserves for losses on interest repayments as of September 30, 2014 was ¥14.0 billion, compared to ¥16.2 billion as of March 31, 2014.

Additionally, APLUS FINANCIAL and its consolidated subsidiaries' usage of reserves for losses on interest repayments (interest repayment and related principal amortization) totaled to ¥1.5 billion for the six months ended September 30, 2014, compared to ¥1.6 billion for the six months ended September 30, 2013. No additional reserves were provisioned during the six months ended September 30, 2014, and the outstanding total balance of reserves for losses on interest repayments as of September 30, 2014, was ¥3.0 billion, compared to ¥4.6 billion as of March 31, 2014.

#### **CORPORATE/OTHER**

Corporate/Other includes the business results of the Treasury Sub-Group which oversees the ALM operations of the entire Bank.

Note: (1) Includes company-wide accounts, allocation variance of indirect expense and elimination amount of inter-segment transactions.

While total revenue of Corporate/Other for the six months ended September 30, 2013 was a loss of ¥3.9 billion, for the six months ended September 30, 2014 a profit of ¥2.9 billion was recorded. Net interest income of ¥0.1 billion was recorded in the for six months ended September 30, 2014, a significant improvement compared to a loss of ¥3.3 billion recorded in the six months ended September 30, 2013. This performance was due in part to the maturation of high interest rate time deposits resulting in lower funding costs, which in turn had an impact through internal funds transfers.

Noninterest income, while a loss of ¥0.5 billion was recorded for the six months ended September 30, 2013 on the sale of JGBs undertaken to avoid interest rate risk arising from major fluctuations in the market caused by temporary turbulence in financial markets, a profit of ¥2.7 billion was recorded for the six months ended September 30, 2014. This performance was due to the undertaking of flexible operations by the Treasury Sub-Group in its ALM operations resulting in the recording of a profit of ¥1.7 billion in the Treasury Sub-Group on the sale of bonds including overseas corporate bonds and government bonds.

#### **RESULTS OF OPERATIONS (NONCONSOLIDATED)**

#### SUMMARY OF NONCONSOLIDATED **FINANCIAL RESULTS**

We disclose nonconsolidated financial information in addition to our consolidated financial statements. As a recipient of public funds, we are required by the Financial Services Agency of Japan ("FSA") to update and report on nonconsolidated performance in relation to targets set forth in our Revitalization Plan on a quarterly basis and to publicly disclose that information semi-annually. Shinsei recorded a net income of ¥19.3 billion on a nonconsolidated basis for the six months ended September 30, 2014. Differences between the net income on a nonconsolidated basis and consolidated basis are mainly because of the gains and losses from our consolidated subsidiaries, including Showa Leasing, Shinsei Financial, APLUS FINANCIAL and SHINKI, the gains and losses on our investment in our equity method affiliate, Jih Sun Financial Holding Co., Ltd., and the dividends received from our major consolidated subsidiaries.

Notes: (1) Includes net gain (loss) on monetary assets held in trust of ¥7.2 billion and ¥2.3 billion for the six months ended September 30, 2014 and 2013, respectively.

#### SUPPLEMENTAL NONCONSOLIDATED MEASURES

In addition to the reporting items set forth in our nonconsolidated financial statements, the Banking Act of Japan requires us to disclose gross business profit (gyomu sorieki) on a nonconsolidated basis. Furthermore, in the Japanese banking industry, net business profit (jisshitsu gyomu jun-eki) has traditionally been used as a measure of the profitability of core banking operations. We review these non Japanese GAAP performance measures in monitoring the results of our operations.

Gross business profit (gyomu sorieki) is the sum of:

- net interest income, which excludes interest expense related to investment in monetary assets held in trust;
- net fees and commissions, which includes net gain (loss) on monetary assets held in trust (in keeping with the definition of gross business profit in our revitalization plan);

- net trading income; and
- net other business income, which excludes net gain (loss) on monetary assets held in trust and on equity securities.

Net business profit (jisshitsu gyomu jun-eki) is gross business profit (gyomu sorieki) minus nonconsolidated expenses, which corresponds to general and administrative expenses adjusted for certain items.

While these non Japanese GAAP business profit measures should not be viewed as a substitute for net income, management believes that these measures provide a meaningful way of comparing a number of the important components of Shinsei's revenues and profitability from year to year. The table above sets forth these supplemental financial data and corresponding reconciliations to net income under Japanese GAAP for the presented period.

<sup>(2)</sup> General and administrative expenses with certain adjustment

<sup>(3)</sup> Excludes net gain (loss) on monetary assets held in trust.

#### FINANCIAL CONDITION

#### **TOTAL ASSETS**

Consolidated total assets decreased from ¥9,321.1 billon to ¥9,190.1 billion over the six months ended September 30, 2014.

The balance of loans and bills discounted was ¥4,338.6 billion as of September 30, 2014, an increase of ¥18.7 billion from ¥4,319.8 billion as of March 31, 2014. Loans to institutional customers shrank slightly as a result of factors such as collections of loans and fierce competition to meet loan demand from customers. In loans to individuals, housing loans continued to steadily increase, and the consumer finance loan balance continued to grow compared to the previous fiscal year. As a result, the overall balance of loans and bills discounted for the Bank grew.

Note: (1) Excludes unclaimed matured debentures.

#### **TOTAL EQUITY**

Total equity as of September 30, 2014 was ¥706.2 billion and included minority interests of ¥20.4 billion.

## ASSET QUALITY AND DISPOSAL OF NONPERFORMING LOANS OF SHINSEI

At September 30, 2014, 58.7% of our consolidated nonperforming loans as disclosed in accordance with the guidelines of the Japanese Bankers Association (JBA) were held by Shinsei and most of the rest were held by Shinsei Financial and APLUS FINANCIAL. This discussion of our asset quality presents information of Shinsei on a nonconsolidated basis unless specified otherwise. In particular, nonperforming claims as defined in the Financial Revitalization Law are only disclosed on a nonconsolidated basis, and therefore do not include nonperforming claims held by Shinsei Financial, APLUS FINANCIAL, Showa Leasing and SHINKI. For a discussion regarding the nonperforming claims of Shinsei Financial, APLUS FINANCIAL, Showa Leasing and SHINKI see Asset Quality of Shinsei Financial, APLUS FINANCIAL, Showa Leasing and SHINKI.

We classify our obligors and assess our asset quality based on our self-assessment guidelines developed in accordance with guidelines published by the FSA. We generally perform our self-assessment quarterly. The self-assessment process involves classifying obligors based on their financial condition and then categorizing claims against obligors in order of collection risk. Based on these classifications, we establish reserves and disclose our nonperforming loans and other claims using criteria specified in the Financial Revitalization Law. We also disclose our nonperforming loans under a format devised by the JBA for the disclosure of risk-monitored loans.

## CLAIMS CLASSIFIED UNDER THE FINANCIAL REVITALIZATION LAW

Under the Financial Revitalization Law, Japanese banks categorize their nonconsolidated total claims in four categories by reference to the nature of the relevant assets. In addition to loans and bills discounted, claims that are subject to disclosure under the Financial Revitalization Law include foreign exchange claims, securities lent, private placement bonds guaranteed by Shinsei, accrued income and suspense payments in other assets, as well as customers' liabilities for acceptances and guarantees.

## DISCLOSURE OF CLAIMS CLASSIFIED UNDER THE FINANCIAL REVITALIZATION LAW

Our current management team has consistently emphasized the monitoring of nonperforming claims. Shinsei's total amount of nonperforming claims as disclosed pursuant to the Financial Revitalization Law decreased ¥54.5 billion, or 33.1%, to ¥110.1 billion, between March 31, 2014 and September 30, 2014. During the six months ended September 30, 2014, claims against bankrupt and quasi-bankrupt obligors decreased from ¥13.2 billion to ¥8.6 billion, and doubtful claims decreased from ¥146.6 billion to ¥97.0 billion, and substandard claims decreased from ¥4.8 billion to ¥4.4 billion, as a result of our self assessment. The ratio of nonperforming claims disclosed under the Financial Revitalization Law to total nonconsolidated claims as of September 30, 2014 decreased to 2.6%, compared to 3.8% as of March 31, 2014.

Shinsei's claims against other need caution obligors, excluding substandard claims, totaled ¥100.5 billion as of September 30, 2014, a 7.6% decrease from ¥108.8 billion as of March 31, 2014, which included private placement bonds guaranteed by Shinsei classified as claims against other need caution obligors.

These claims represented 2.4% of total nonconsolidated claims as of September 30, 2014, down from 2.5% as of March 31, 2014.

Notes: (1) Financial and operational data that are stated in multiples of ¥0.1 billion have been truncated. All percentages have been rounded to the nearest 0.1%.

(2) The Financial Revitalization Law requires us to classify and disclose "claims" which include, in addition to loans and bills discounted, foreign exchange claims, securities lent, private placement bonds guaranteed by Shinsei, accrued income and suspense payments in other assets, as well as customers' liabilities for acceptances and guarantees. By comparison, as for risk-monitored loans, the format devised by the JBA only classifies, and calls for disclosure of, certain loans and bills discounted.

(3) Shaded claims denoted claims that are considered to be nonperforming under the Financial Revitalization Law.

#### **COVERAGE RATIOS**

As of September 30, 2014, nonconsolidated coverage ratios for claims classified under the Financial Revitalization Law, which for each category of claims is the total of collateral pledged against claims, guarantees for claims and reserve for loan losses, measured against total claims, were 100.0% for claims against bankrupt and quasi-bankrupt obligors, 96.7%

for doubtful claims and 64.9% for substandard claims. For all claims classified under the Financial Revitalization Law, the coverage ratio was 95.7%.

Shinsei directly writes off, rather than reserves, the portion of claims against bankrupt and quasi-bankrupt obligors that are estimated to be uncollectible. As of September 30, 2014, ¥53.9 billion of such claims were written off on a nonconsolidated basis.

#### **ASSET QUALITY OF SHINSEI FINANCIAL, APLUS FINANCIAL, SHOWA LEASING AND SHINKI**

Shinsei Financial, APLUS FINANCIAL, Showa Leasing and SHINKI classify their obligors and assess their asset quality based on self-assessment guidelines developed in accordance with guidelines published by the FSA. They generally perform their self-assessment quarterly and at least semi-annually. Shinsei Financial, APLUS FINANCIAL, Showa Leasing and SHINKI's assessments, where applicable, include, among other things, an assessment of credit extended to credit card customers as well as lease obligors, unsecured personal loans and customer guarantees.

The following tables set forth information concerning consolidated risk-monitored loans and risk-monitored installment receivables held by Shinsei, Shinsei Financial, APLUS FINAN-CIAL, Showa Leasing, SHINKI and other subsidiaries as of the dates indicated:

Note: (1) Neither Shinsei Bank (nonconsolidated) nor SHINKI had any such installment receivables.

#### **CAPITAL RATIOS**

From the fiscal year ended March 31, 2014, the Basel III methodology has been adopted to calculate capital ratios. For credit risk, the Foundation Internal Ratings Based Approach (FIRB) has been applied. For operational risk, the Standardized Approach (TSA) has been adopted and the Internal Model Method has been used for market risk.

Our total capital adequacy ratio as of September 30, 2014 was 13.8%, compared with 13.6% as of March 31, 2014.

The main factors of reduction in risk assets are change of the risk parameter of corporate and retail assets and upward credit rating changes of corporate loan assets, which resulted in further improvement of the Total capital adequacy ratio to 13.8%, as of September 30, 2014, compared to 13.6% as of March 31, 2014.

#### TABLE 28. CAPITAL RATIOS (CONSOLIDATED)

Review of Operations

## NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Shinsei Bank, Limited, and its Consolidated Subsidiaries For the six months ended September 30, 2014

#### 1. BASIS OF PRESENTATION OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The accompanying interim consolidated financial statements of Shinsei Bank, Limited (the "Bank") and its consolidated subsidiaries (collectively, the "Group"), stated in Japanese yen, have been prepared on the basis of generally accepted accounting principles in Japan ("Japanese GAAP") and in accordance with the Banking Act of Japan (the "Banking Act"), and compiled from the interim consolidated financial statements prepared under the provisions set forth in the Financial Instruments and Exchange Act of Japan, which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards.

Certain reclassifications and rearrangements have been made to the interim consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan. In addition, the accompanying notes include information that is not required under Japanese GAAP, but is presented herein for the convenience of readers.

The preparation of interim consolidated financial statements in conformity with Japanese GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

As permitted by the Financial Instruments and Exchange Act of Japan, yen amounts, except for per share amounts, are presented in millions of yen and are rounded down to the nearest million. As a result, the totals do not necessarily conform with the sum of the individual amounts.

The interim consolidated financial statements are stated in Japanese yen, the currency of the country in which the Bank is incorporated and operates. The translations of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥109.26 to U.S.\$1.00, the rate of exchange prevailing on the Tokyo foreign exchange market on September 30, 2014. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### (A) PRINCIPLES OF CONSOLIDATION

The Group applies its consolidation scope using the control and influence concepts. Under the control and influence concepts, those companies in which the Bank, directly or indirectly, is able to exercise control over operations are fully consolidated and those companies in which the Bank, directly or indirectly, is able to exercise significant influence over operations are accounted for by the equity method.

The numbers of subsidiaries and affiliates as of September 30, 2014 and March 31, 2014 were as follows:

| Sep   | tember 30, 2014 | March 31, 2014 |
|---|-----------------|----------------|
| Consolidated subsidiaries                     | 183             | 184            |
| Unconsolidated subsidiaries                   | 90              | 93             |
| Affiliates accounted for by the equity method | od <b>22</b>    | 19             |
| Affiliates accounted for not applying         |                 |                |
| the equity method                             | 1               | 0              |

SL PERM CO., LTD. and 1 other company were newly consolidated due to an increased materiality, while Galaxy Asset Management Co., Ltd. and 1 other company were excluded from the scope of consolidation due to their liquidation and SL ROCKY LTD. was excluded from the scope of consolidation due to a decreased materiality in the six months ended September 30, 2014.

Shinsei Creation Partners Investment Limited Partnership II and 3 other companies were newly included in the scope of application of the equity method due to their formation and other factors, while SR Investment Business Limited Partnership was excluded from the scope of application of the equity method due to its liquidation in the six months ended September 30, 2014.

Unconsolidated subsidiaries are primarily operating companies that undertake leasing business based on the Tokumei Kumiai system (silent partnerships). Tokumei Kumiai's assets, profit and loss virtually belong to each silent partner but not to the operation companies, and the Group does not have any material transactions with these subsidiaries. Therefore, these subsidiaries are excluded from consolidation in order to avoid any material misunderstanding by the Bank's stakeholders.

Other unconsolidated subsidiaries are excluded from consolidation because they are immaterial to the financial condition or results of operations of the Group.

Major consolidated subsidiaries as of September 30, 2014 were as listed below:

| Name                               | Location | Percentage<br>ownership |
|------------------------------------|----------|-------------------------|
| APLUS FINANCIAL Co., Ltd.          | Japan    | 95.0%                   |
| Showa Leasing Co., Ltd.            | Japan    | 97.8%                   |
| SHINKI Co., Ltd.                   | Japan    | 100.0%                  |
| Shinsei Financial Co., Ltd.        | Japan    | 100.0%                  |
| Shinsei Trust & Banking Co., Ltd.  | Japan    | 100.0%                  |
| Shinsei Securities Co., Ltd.       | Japan    | 100.0%                  |
| Shinsei Principal Investments Ltd. | Japan    | 100.0%                  |

All significant inter-company transactions, related account balances and unrealized gains have been eliminated in consolidation. As of September 30, 2014, the six month period ending dates were September 30 for 139 subsidiaries, January 31 for 3 subsidiaries, March 31 for 3 subsidiaries, May 31 for 1 subsidiary, June 30 for 34 subsidiaries, July 31 for 1 subsidiary and August 31 for 2 subsidiaries. Except for 9 subsidiaries which were consolidated as of September 30 rather than their interim period ends, those consolidated subsidiaries whose six month periods end at dates other than September 30 were consolidated using their six month period-end interim financial statements with appropriate adjustments made for significant transactions that occurred during the period from the ending dates of their six month periods to the date of the Group's interim consolidated financial statements.

Major affiliates accounted for by the equity method as of September 30, 2014 were as listed below:

| Name                                | Location | Percentage<br>ownership |
|-------------------------------------|----------|-------------------------|
| Comox Holdings Ltd.                 | Bermuda  | 49.9%                   |
| Jih Sun Financial Holding Co., Ltd. | Taiwan   | 35.4%                   |

#### (B) BUSINESS COMBINATIONS

In October 2003, the Business Accounting Council (the "BAC") issued a Statement of Opinion, "Accounting for Business Combinations," and in December 2005, the Accounting Standards Board of Japan (the "ASBJ") issued ASBJ Statement No.7, "Accounting Standard for Business Divestitures" and ASBJ Guidance No.10, "Guidance for Accounting Standard for Business Combinations and Business Divestitures." The accounting standard for business combinations allowed companies to apply the pooling of interests method of accounting only when certain specific criteria are met such that the business combination is essentially regarded as a uniting-of-interests. For business combinations that do not meet the uniting-of-interests criteria, the business combination is considered to be an acquisition and the purchase method of accounting is required. This standard also prescribes the accounting for combinations of entities under common control and for joint ventures.

In December 2008, the ASBJ issued a revised accounting standard for business combinations, ASBJ Statement No. 21, "Accounting Standard for Business Combinations." Major accounting changes under the revised accounting standard are as follows: (i) The revised standard requires accounting for business combinations only by the purchase method. As a result, the pooling of interests method of accounting is no longer allowed. (ii) The previous accounting standard provided for a bargain purchase gain (negative goodwill) to be systematically amortized over a period not exceeding 20 years. Under the revised standard, the acquirer recognizes the bargain purchase gain in profit or loss immediately on the acquisition date after reassessing and confirming that all of the assets acquired and all of the liabilities assumed have been identified after a review of the procedures used in the purchase price allocation. The revised standard was applicable to business combinations undertaken on or after April 1, 2010.

Under the previous standard, the Group accounted for the acquisitions of APLUS FINANCIAL Co., Ltd. ("APLUS FINAN-CIAL"), Showa Leasing Co., Ltd. ("Showa Leasing"), SHINKI Co., Ltd. ("SHINKI"), Shinsei Financial Co., Ltd. ("Shinsei Financial") and their consolidated subsidiaries by the purchase method of accounting.

# (C) GOODWILL AND INTANGIBLE ASSETS ACQUIRED IN **BUSINESS COMBINATIONS**

The Bank recognized certain identifiable intangible assets in connection with the acquisition of Showa Leasing, Shinsei Financial and their consolidated subsidiaries, because they were separable such as contractual or other legal rights.

The identified intangible assets with amortization method and period are as listed below:

#### Showa Leasing

| Identified intangible assets | Amortization method     | Amortization period      |
|------------------------------|-------------------------|--------------------------|
| Trade name and trademark     | Straight-line           | 10 years                 |
| Customer relationship        | Sum-of-the-years digits | 20 years                 |
| Sublease contracts           | Straight-line           | Subject to the remaining |
|                              |                         | contract years           |

#### Shinsei Financial

| Identified intangible assets | Amortization method     | Amortization period |
|------------------------------|-------------------------|---------------------|
| Trade names and trademarks   | Straight-line           | 10 years            |
| Customer relationship        | Sum-of-the-years digits | 10 years            |

The excess of the purchase price over the fair value of the net assets acquired, including identified intangible assets, was recorded as goodwill and is being amortized on a consistent basis primarily over 20 years. The amortization period of 20 years is the maximum period allowed under Japanese GAAP and was determined based upon the Bank's business strategy.

With regard to the acquisitions undertaken before April 1, 2010, accounted for under the previous accounting standard, when the purchase price was lower than the fair value of the net assets acquired, including identified intangible assets, the difference is recorded as negative goodwill and primarily amortized on a straight-line basis over 20 years, which is the maximum period allowed under the previous accounting standard.

# (D) IMPAIRMENT OF GOODWILL AND INTANGIBLE ASSETS ACQUIRED IN BUSINESS COMBINATIONS

The Bank conducts impairment testing for goodwill and intangible assets acquired in business combinations as a result of certain triggering events including:

- An expectation of an operating loss or negative cash flow for two consecutive years;
- Impairment of underlying investment securities is recognized;
- A significant adverse change in the environment surrounding the business operations of the subsidiary, such as a change in law which significantly impacts the business in a negative way;
- Management decisions that could have an adverse effect on the value of goodwill and intangible assets acquired in business combinations.

As the first step of the impairment test, we estimate the undiscounted future cash flows of the business. If the value of the undiscounted future cash flows is less than the book value of the net assets, including goodwill and intangible assets acquired in business combinations, of the business, it is determined that impairment exists and the next step of the impairment test is performed to measure the amount of the impairment loss.

The next step of the impairment test compares the "value in use," which is calculated as the discounted value of future cash flows of the business, and the net asset book value which includes unamortized balances of goodwill and intangible assets acquired in business combinations. (i) Impairment loss for the total of goodwill and intangible assets acquired in business combinations, is recognized as an amount by which the net asset book value exceeds the "value in use." The recoverable amount of intangible assets acquired in business combinations is determined in the same manner used to apply purchase accounting at the time of the initial acquisition, and (ii) the impairment loss of intangible assets acquired in business combinations, is determined as the difference between the recoverable amount and book value. Finally, the impairment loss on goodwill is calculated as the residual calculated as (i) less (ii) above.

# (E) TRANSLATION OF FOREIGN CURRENCY FINANCIAL STATEMENTS AND TRANSACTIONS

(a) The interim financial statements of consolidated foreign subsidiaries are translated into Japanese yen at exchange rates as of their respective balance sheet dates, except for equity, which is translated at historical exchange rates. Differences arising from such translation are shown as "Foreign currency translation adjustments" under accumulated other comprehensive income in a separate component of equity in the accompanying interim consolidated balance sheets.

- (b) Foreign currency accounts held by consolidated foreign subsidiaries are translated into the currency of the subsidiary at exchange rates as of their respective balance sheet dates.
- (c) Foreign currency-denominated assets and liabilities of the Bank and consolidated domestic subsidiaries are translated into Japanese yen at exchange rates as of their respective balance sheet dates, except for investments in unconsolidated subsidiaries and affiliates which are translated at the relevant historical exchange rates.

#### (F) CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash on hand, due from the Bank of Japan and noninterest-bearing deposits.

#### (G) OTHER MONETARY CLAIMS PURCHASED

Other monetary claims purchased held for trading purposes are recorded at fair value and unrealized gains and losses are recorded in other business income (loss), net.

#### (H) VALUATION OF TRADING ACCOUNT ACTIVITIES

Trading account positions entered into to generate gains arising from short-term changes in interest rates, currency exchange rates or market prices of financial instruments and other market-related indices, or from price differences among markets, are included in trading assets and trading liabilities on a trade-date basis.

Trading securities and monetary claims purchased for trading purposes are stated at market value and derivative financial instruments related to trading positions are stated at fair value based on estimated amounts that would be settled in cash if such positions were terminated at the end of the period, which reflects liquidity and credit risks.

Trading income and trading losses include interest received and paid during the period and unrealized gains and losses resulting from the change in the value of securities, monetary claims purchased, and derivatives between the beginning and the end of the period.

## (I) MONETARY ASSETS HELD IN TRUST

The components of trust assets are accounted for based on the accounting standards appropriate for each asset type. Instruments held in trust for trading purposes are recorded at fair value and unrealized gains and losses are recorded in other business income (loss), net. Instruments held in trust classified as available-for-sale are recorded at fair value with the corresponding unrealized gains and losses recorded directly in a separate component of equity.

Instruments held in trust classified as available-for-sale for which fair value cannot be reliably determined are carried at cost.

CONSOLIDATED

#### (J) SECURITIES

Securities other than investments in unconsolidated subsidiaries and affiliates are classified into three categories, based principally on the Group's intent, as follows:

Trading securities are securities held in anticipation of gains arising from short-term changes in market value and/or held for resale to customers. Trading securities are carried at fair value with corresponding unrealized gains and losses recorded in income (loss).

Securities being held to maturity are debt securities for which the Group has both a positive intent and ability to hold until maturity. Securities being held to maturity are carried at amortized cost determined by the moving average method.

Securities available for sale are securities other than trading securities and securities being held to maturity. Securities available for sale are carried at fair value with the corresponding unrealized gains and losses, net of applicable taxes, recorded directly in a separate component of equity. The cost of these securities upon sale is determined by the moving average method. Securities available for sale for which fair value cannot be reliably determined are carried at cost determined by the moving average method.

Investments in unconsolidated subsidiaries and affiliates that are not accounted for by the equity method are carried at cost determined by the moving average method.

In addition, investments in partnerships and others are carried at the amount of the Group's share of net asset value based on their most recent financial statements.

Individual securities, other than trading securities, are written down when a decline in fair value is significant as compared to the cost of such securities since the decline in fair value is deemed to be other than temporary.

# (K) PREMISES AND EQUIPMENT

Premises and equipment are stated at cost less accumulated depreciation.

Depreciation of the Group's buildings and the Bank's computer equipment (including ATMs) other than personal computers is computed principally using the straight-line method, and depreciation of other equipment is computed principally using the declining-balance method. Principal estimated useful lives of buildings and equipment as of September 30, 2014 were as follows:

Buildings ....... 3 years to 50 years Equipment ..... 2 years to 20 years

## (L) SOFTWARE

Capitalized software for internal use is depreciated using the straight-line method based on the Group's estimated useful lives (primarily 5 years).

# (M) IMPAIRMENT OF LONG-LIVED ASSETS

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or asset group may not be recoverable. An impairment loss is recognized if the carrying amount of an asset or asset group exceeds the sum of the undiscounted future cash flows expected to result from the continued use and eventual disposition of an asset or asset group. The impairment loss is measured as the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the discounted cash flows from the continued use and eventual disposition of the asset or the net selling price at disposition.

#### (N) DEFERRED CHARGES

Deferred issuance expenses for debentures and corporate bonds are amortized using the straight-line method over the term of the debentures and corporate bonds.

#### (O) RESERVE FOR CREDIT LOSSES

The reserve for credit losses of the Bank and the consolidated domestic trust and banking subsidiary has been established as described below based on the Bank's internal rules for establishing the reserve.

For claims to obligors who are legally bankrupt due to bankruptcy, special liquidation proceedings or similar legal proceedings ("legally bankrupt obligors") or to obligors who are effectively in similar conditions ("virtually bankrupt obligors"), a specific reserve is provided based on the amount of claims, after the charge-off stated below, net of amounts expected to be collected through the disposal of collateral or execution of guarantees.

For claims to obligors who are not yet bankrupt but are experiencing financial difficulties and are very likely to go bankrupt in the future ("possibly bankrupt obligors"), except for claims to obligors with larger claims than a predetermined amount, a specific reserve is provided for the amount considered to be necessary based on an overall solvency assessment performed for the amount of claims net of amounts expected to be collected through the disposal of collateral or execution of guarantees.

With regard to claims to possibly bankrupt obligors, restructured loans and certain claims for which the reserve has been provided based on the discounted cash flow method (as mentioned below) in previous fiscal years, provided that obligors' cash flows for debt service are reasonably estimable and the balance of claims to such obligors is at or larger than a predetermined amount, the reserve for credit losses is determined as the difference between (i) relevant estimated cash flows discounted by the original contractual interest rate and (ii) the

book value of the claim (discounted cash flow method). In case where it is difficult to reasonably estimate future cash flows, the reserve is provided based on expected loss amount for the remaining term of respective claims.

For other claims, a general reserve is provided based on historical loan loss experience.

For specific foreign claims, there is a reserve for loans to restructuring countries which has been provided based on losses estimated by considering the political and economic conditions in those countries.

All claims are assessed by business divisions based on the predetermined internal rules for self-assessment of asset quality. The Credit Assessment Division, which is independent from business divisions, conducts verifications of these assessments, and additional reserves may be provided based on the verification results.

The consolidated subsidiaries other than the domestic trust and banking subsidiary calculate the general reserve for general claims based on the actual historical loss ratio, and the specific reserve for claims to possibly bankrupt obligors, virtually bankrupt obligors and legally bankrupt obligors based on estimated losses, considering the recoverable value.

For collateralized or guaranteed claims of the Bank and certain consolidated subsidiaries to legally bankrupt obligors or virtually bankrupt obligors, the amount of claims exceeding the estimated value of collateral or guarantees, which is deemed uncollectible, has been charged off and totaled ¥148,242 million (U.S.\$1,356,790 thousand) and ¥155,632 million as of September 30, 2014 and March 31, 2014, respectively.

# (P) ACCRUED BONUSES FOR EMPLOYEES AND DIRECTORS Accrued bonuses for employees and directors are provided in the amount of the estimated bonuses which are attributable to each period.

# (Q) EMPLOYEES' RETIREMENT BENEFITS AND PENSION **PLAN ASSETS**

The Bank, APLUS FINANCIAL and Showa Leasing each have a noncontributory defined benefit pension plan, and Shinsei Financial and certain of the other consolidated domestic subsidiaries have unfunded severance indemnity plans, which cover substantially all of the Group's employees. The liability for employees' retirement benefits is provided for the payment of employees' retirement benefits based on the estimated amounts of the projected benefit obligations and the estimated value of pension plan assets at the end of the period. Net actuarial gains and losses and past service costs are amortized using the straight-line method over the average remaining service period primarily from the period of occurrence. Certain consolidated subsidiaries recognized retirement benefit obligations at the amount to be required for voluntary termination as of the end of period.

Effective April 1, 2000, the Bank adopted an accounting standard for employees' retirement benefits and accounts for the liability for retirement benefits based on the projected benefit obligations and plan assets at the balance sheet date. The transitional unrecognized net retirement benefit obligations for the Bank of ¥9,081 million is being amortized using the straight-line method over 15 years.

In May 2012, the ASBJ issued ASBJ Statement No. 26, "Accounting Standard for Retirement Benefits" and ASBJ Guidance No. 25, "Guidance on Accounting Standard for Retirement Benefits," which replaced the accounting standard for retirement benefits that had been issued by the Business Accounting Council in 1998 with an effective date of April 1, 2000, and the other related practical guidance, and were followed by partial amendments from time to time through 2009.

- (a) Under the revised accounting standard, actuarial gains and losses and past service costs that are yet to be recognized in profit or loss are recognized within equity (accumulated other comprehensive income), after adjusting for tax effects, and any resulting deficit or surplus is recognized as a liability (liability for retirement benefits) or asset (asset for retirement benefits).
- (b) The revised accounting standard does not change how to recognize actuarial gains and losses and past service costs in profit or loss. Those amounts are recognized in profit or loss over a certain period no longer than the expected average remaining service period of the employees. However, actuarial gains and losses and past service costs that arose in the current period and have not yet been recognized in profit or loss are included in other comprehensive income and actuarial gains and losses and past service costs that were recognized in other comprehensive income in prior periods and then recognized in profit or loss in the current period shall be treated as reclassification adjustments.
- (c) The revised accounting standard also made certain amendments relating to the method of attributing expected benefit to periods and relating to the discount rate and expected future salary increases.

This accounting standard and the guidance for (a) and (b) above are effective for the end of the fiscal year beginning on or after April 1, 2013, and for (c) above are effective for the beginning of the fiscal year beginning on or after April 1, 2014, or for the beginning of fiscal year beginning on or after April 1, 2015, subject to certain disclosure in March 2015, both with earlier application being permitted from the beginning of the fiscal year beginning on or after April 1, 2013. However, no retrospective application of this accounting standard to consolidated financial statements in prior periods is required.

The Group applied the revised accounting standard and guidance for retirement benefits for (a) and (b) above, effective March 31, 2014. As a result, asset for retirement benefits of ¥1,567 million, which was previously included in other assets as prepaid pension cost, and liability for retirement benefits of ¥10,116 million, which was previously presented under the title of reserve for employees' retirement benefits, were recorded as of March 31, 2014, and accumulated other comprehensive income for the fiscal year ended March 31, 2014, decreased by ¥5,195 million.

The Group applied the revised accounting standard for (c) above effective from April 1, 2014, and changed (i) the method of attributing expected benefit to periods from a straight-line basis to a benefit formula basis and (ii) the method of determining the discount rate, from the method based on a single bond interest rate corresponding to the expected average remaining service period of employees, to the method of using a single weighted average discount rate reflecting the estimated timing and amount of benefit payments. As a result of this application on April 1, 2014, asset for retirement benefits of ¥1,223 million (U.S.\$11,197 thousand) and liability for retirement benefits of ¥3,671 million (U.S.\$33,601 thousand) increased and retained earnings of ¥1,799 million (U.S.\$16,471 thousand) and defined retirement benefit plans of ¥648 million (U.S.\$5,933 thousand) decreased. The effects of this application on net income and basic net income per common share were immaterial.

# (R) RESERVE FOR DIRECTORS' RETIREMENT BENEFITS

Retirement allowances for directors and audit & supervisory board members are recorded to state the liability at the amount that would be required if all directors and audit & supervisory board members retired at each balance sheet date.

# (S) RESERVE FOR LOSSES ON INTEREST REPAYMENTS

The reserve for losses on interest repayments is provided for estimated losses on reimbursements of excess interest payments and loan losses related to consumer finance loans extended at interest rates in excess of the maximum interest rate prescribed in the Interest Rate Restriction Act of Japan. The reserve is established in the amount of the estimated future reimbursement requests based on past experience.

In addition, a reserve for losses on interest repayments of Shinsei Financial had been calculated considering the terms stipulated in the share transfer agreement entered into by and between the Bank and the seller, GE Japan Holdings Co., Ltd. ("GE Japan"), for the acquisition of Shinsei Financial, under which the sharing of interest repayment costs between the Bank and GE Japan is determined. The agreement also provided

GE Japan with a buyout option to end such obligation as of March 31, 2014, whereby GE Japan would make a one-time payment to Shinsei Financial in the amount that the Bank had determined to cover expected future losses on interest repayments. In accordance with the agreement, GE Japan exercised its option to conclude the indemnity for losses on interest repayments and Shinsei Financial received a cash payment for expected future losses on interest repayments of ¥175,000 million and recorded a reserve of the same amount as of March 31, 2014.

#### (T) ASSET RETIREMENT OBLIGATIONS

In March 2008, the ASBJ issued ASBJ Statement No.18 "Accounting Standard for Asset Retirement Obligations" and ASBJ Guidance No. 21 "Guidance on Accounting Standard for Asset Retirement Obligations."

Under this accounting standard, an asset retirement obligation is defined as a legal obligation imposed either by law or contract that results from the acquisition, construction, development and the normal operation of a tangible fixed asset and is associated with the retirement of such tangible fixed asset.

The asset retirement obligation is recognized as the sum of the discounted cash flows required for the future asset retirement and is recorded in the period in which the obligation is incurred. Upon initial recognition of a liability for an asset retirement obligation, an asset retirement cost is capitalized by increasing the carrying amount of the related fixed asset by the amount of the liability.

The asset retirement cost is subsequently allocated to expense through depreciation over the remaining useful life of the asset. Over time, the liability is accreted to its present value each period. Any subsequent revisions to the timing or the amount of the original estimate of undiscounted cash flows are reflected as an adjustment to the carrying amount of the liability and the capitalized amount of the related asset retirement cost.

# (U) STOCK OPTIONS

In December 2005, the ASBJ issued ASBJ Statement No. 8, "Accounting Standard for Stock Options" and related guidance. The new standard and guidance are applicable to stock options newly granted on and after May 1, 2006. This standard requires companies to measure the cost of employee stock options based on the fair value at the date of grant and recognize compensation expense over the vesting period as consideration for receiving goods or services. In the consolidated balance sheet, the stock option is presented as a stock acquisition right as a separate component of equity until exercised.

# (V) LEASE TRANSACTIONS

In March 2007, the ASBJ issued ASBJ Statement No.13, "Accounting Standard for Lease Transactions," which revised the previous accounting standard for lease transactions.

Effective April 1, 2008, the Bank and its consolidated subsidiaries applied the revised accounting standard for lease transactions.

#### (As lessee)

Under the previous accounting standard, finance leases that were deemed to transfer ownership of the leased property to the lessee were capitalized. However, other finance leases were permitted to be accounted for as operating lease transactions if certain "as if capitalized" information was disclosed in the note to the lessee's financial statements. The revised accounting standard requires that all finance lease transactions be capitalized by recognizing lease assets and lease obligations in the consolidated balance sheets.

Depreciation of lease assets from finance lease transactions that deem to transfer ownership of the leased property to the lessee, is computed using the same method as the one applied to owned assets. Depreciation of lease assets from finance lease transactions that do not deem to transfer ownership of the leased property to the lessee is computed using the straight-line method over the leasing period. Residual values of lease assets are the guaranteed value determined in the lease contracts or zero for assets without such guaranteed value.

With regard to finance lease transactions entered into prior to April 1, 2008, that do not deem to transfer ownership of the leased property to the lessee, lease assets are recognized at the amount of lease obligations as of March 31, 2008.

#### (As lessor)

Under the previous accounting standard, finance leases that were deemed to transfer ownership of the leased property to the lessee were treated as sales. However, other finance leases were permitted to be accounted for as operating lease transactions if certain "as if sold" information was disclosed in the note to the lessor's financial statements. The revised accounting standard requires that all finance leases that are deemed to transfer ownership of the leased property to the lessee be recognized as lease receivables, and that all finance leases that are not deemed to transfer ownership of the leased property to the lessee be recognized as leased investment assets.

In addition, depreciation of tangible leased assets as lessor for operating lease transactions is computed using the straightline method over the leasing period assuming that residual values are the disposal price estimable at the end of the estimated leasing period.

Net income on each finance lease transaction is calculated on the basis of the internal rate of return of each transaction.

With regard to finance lease transactions entered into prior to April 1, 2008, that do not deem to transfer ownership of the leased property to the lessee, leased investment assets are recognized at the amount of book values of those leased properties as of March 31, 2008.

As a result of this transitional treatment, income before income taxes and minority interests increased by ¥105 million (U.S.\$966 thousand) and ¥215 million for the six months ended September 30, 2014 and 2013, respectively, as compared to what would have been reported if the revised accounting standard was applied retroactively to all finance lease transactions as lessor.

## (W) INSTALLMENT SALES FINANCE AND CREDIT GUARANTEES

Fees from installment sales finance have principally been prorated over the respective installment periods by using the sum-ofthe-months digits method, or by using the credit-balance method.

Fees from credit guarantees have been recognized either by the sum-of-the-months digits method, the straight-line method or the credit-balance method over the contract terms.

# (X) REVENUE RECOGNITION FOR INTEREST ON CONSUMER LENDING BUSINESS

Consolidated subsidiaries specialized in the consumer lending business accrued interest income at the balance sheet date at the lower of the amount determined using a rate permissible under the Interest Rate Restriction Act of Japan or the amount determined using rates on contracts with customers.

#### (Y) INCOME TAXES

Deferred income taxes relating to temporary differences between financial reporting and tax bases of assets and liabilities and tax loss carryforwards have been recognized. The asset and liability approach is used to recognize deferred income taxes.

The Bank files its corporate income tax return under the consolidated corporate tax system, which allows companies to base tax payments on the combined profits and losses of the Bank and its wholly-owned domestic subsidiaries.

A valuation allowance is recognized for any portion of the deferred tax assets where it is considered more likely than not that it will not be realized.

CONSOLIDATED

#### (Z) DERIVATIVES AND HEDGE ACCOUNTING

Derivatives are stated at fair value. Derivative transactions that meet the hedge accounting criteria are primarily accounted for using the deferral method whereby unrealized gains and losses are deferred in a separate component of equity until the gains and losses on the hedged items are realized.

#### (a) Hedge of interest rate risks

Derivative transactions that meet the hedge accounting criteria for mitigating interest rate risks of the Bank's financial assets and liabilities are accounted for using the deferral method. The Bank adopted portfolio hedging to determine the effectiveness of its hedging instruments in accordance with Industry Audit Committee Report No. 24 of the Japanese Institute of Certified Public Accountants (JICPA). Under portfolio hedging activities to mitigate the change in fair value, a portfolio of hedged items with common maturities such as deposits or loans is designated and matched with a group of hedging instruments such as interest rate swaps, which offset the effect of fair value fluctuations of the hedged items by identified maturities. The effectiveness of the portfolio hedging is assessed by each group.

As for portfolio hedging activities to fix cash flows, the effectiveness is assessed based on the correlation between the base interest rate index of the hedged cash flow and that of the hedging instrument.

The interest rate swaps of certain consolidated subsidiaries which qualify for hedge accounting and meet specific matching criteria are not measured at fair value, but the net payments or receipts under the swap agreements are recognized and included in interest expenses or income.

#### (b) Hedge of foreign exchange fluctuation risks

The Bank applies either deferral hedge accounting or fair value hedge accounting in accordance with Industry Audit Committee Report No. 25 of the JICPA to the derivative transactions that meet the hedge accounting criteria for mitigating foreign currency fluctuation risks of its financial assets and liabilities.

Fund swap transactions are foreign exchange swaps, and consist of spot foreign exchange contracts bought or sold and forward foreign exchange contracts bought or sold. Such transactions are contracted for the purpose of lending or borrowing in a different currency and converting the corresponding principal equivalents and foreign currency equivalents to pay and receive, whose amounts and due dates are predetermined at the time of the transactions, into forward foreign exchange contracts bought or sold.

Under deferral hedge accounting, hedged items are identified by grouping the foreign currency-denominated financial assets and liabilities by currency and designating derivative transactions such as currency swap transactions, fund swap transactions and forward exchange contracts as hedging instruments. Hedge effectiveness is reviewed by comparing the total foreign currency position of the hedged items and hedging instruments by currency.

The Bank also applies deferral hedge accounting and fair value hedge accounting to translation gains or losses from foreign currency assets of net investments in foreign unconsolidated subsidiaries, affiliates and securities available for sale (other than bonds denominated in foreign currencies) when such foreign currency exposures recorded as assets are hedged with offsetting foreign currency liabilities and the liabilities equal or exceed the acquisition cost of such foreign currency assets.

# (c) Inter-company and intra-company derivative transactions Gains and losses on inter-company and intra-company deriv-

Gains and losses on inter-company and intra-company derivative hedging transactions between the trading book and the banking book are not eliminated since offsetting transactions with third parties are appropriately entered into in conformity with the nonarbitrary and strict hedging policy in accordance with Industry Audit Committee Reports No. 24 and No. 25 of the JICPA. As a result, in the banking book, realized gains and losses on such inter-company and intracompany transactions are reported in current earnings and valuation gains and losses which meet the hedge accounting criteria are deferred. On the other hand, in the trading book, realized gains and losses and valuation gains and losses on such inter-company and intra-company transactions are substantially offset with covering contracts entered into with third parties.

#### (AA) PER SHARE INFORMATION

Basic net income (loss) per common share calculations represent net income (loss) available to common shareholders, divided by the weighted average number of outstanding shares of common stock during the respective period, retroactively adjusted for stock splits and reverse stock splits.

Diluted net income per common share calculations consider the dilutive effect of common stock equivalents, which include stock acquisition rights, assuming that stock acquisition rights were fully exercised at the time of issuance for those issued during the period and at the beginning of the period for those previously issued and outstanding at the beginning of the period.

CONSOLIDATED

#### (AB) ACCOUNTING CHANGES AND ERROR CORRECTIONS

In December 2009, the ASBJ issued ASBJ Statement No.24 "Accounting Standard for Accounting Changes and Error Corrections" and ASBJ Guidance No.24 "Guidance on Accounting Standard for Accounting Changes and Error Corrections." Accounting treatments under this standard and guidance are as follows:

(a) Changes in accounting policies

When a new accounting policy is applied following revision of an accounting standard, the new policy is applied retrospectively unless the revised accounting standard includes specific transitional provisions, in which case the entity shall comply with the specific transitional provisions.

- (b) Changes in presentation
  - When the presentation of financial statements is changed, prior-period financial statements are reclassified in accordance with the new presentation.
- (c) Changes in accounting estimates
  - A change in an accounting estimate is accounted for in the period of the change if the change affects that period only, and is accounted for prospectively if the change affects both the period of the change and future periods.
- (d) Corrections of prior-period errors
  When an error in prior-period financial statements is discovered, those statements are restated.

# (AC) NEW ACCOUNTING PRONOUNCEMENTS Accounting Standards for Business Combinations and Consolidated Financial Statements

In September 2013, the ASBJ issued revised ASBJ Statement No. 21, "Accounting Standard for Business Combinations," revised ASBJ Guidance No. 10, "Guidance on Accounting Standards for Business Combinations and Business Divestitures," and revised ASBJ Statement No. 22, "Accounting Standard for Consolidated Financial Statements." Major accounting changes are as follows:

- (a) Transactions with noncontrolling interest
  - A parent's ownership interest in a subsidiary might change if the parent purchases or sells ownership interests in its subsidiary. The carrying amount of minority interest is adjusted to reflect the change in the parent's ownership interest in its subsidiary while the parent retains its controlling interest in its subsidiary. Under the current accounting standard, any difference between the fair value of the consideration received or paid and the amount by which the minority interest is adjusted is accounted for as an adjustment of goodwill or as profit or loss in the consolidated statement of income. Under the revised accounting standard, such difference shall be accounted for as capital surplus as long as the parent retains control over its subsidiary.
- (b) Presentation of the consolidated balance sheet In the consolidated balance sheet, "minority interest" under the current accounting standard will be changed to "noncontrolling interest" under the revised accounting standard.
- (c) Presentation of the consolidated statement of income In the consolidated statement of income, "income before minority interest" under the current accounting standard will be changed to "net income" under the revised accounting standard, and "net income" under the current accounting standard will be changed to "net income attributable to owners of the parent" under the revised accounting standard.
- (d) Provisional accounting treatments for a business combination If the initial accounting for a business combination is incomplete by the end of the reporting period in which the business combination occurs, an acquirer shall report in its financial statements provisioned amounts for the items for which the accounting is incomplete. Under the current accounting standard guidance, the effect of adjustments to provisional amounts recorded in a business combination on profit or loss is recognized as profit or loss in the year in which the measurement is completed. Under the revised accounting standard guidance, during the measurement period, which shall not exceed one year from the acquisition, the acquirer shall retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and that would have affected the measurement of the amounts recognized as of that date. Such adjustments shall be recognized as if the accounting for the business combination had been completed at the acquisition date.

#### (e) Acquisition-related costs

Acquisition-related costs are costs, such as advisory fees or professional fees, which an acquirer incurs to effect a business combination. Under the current accounting standard, the acquirer accounts for acquisition-related costs by including them in the acquisition costs of the investment. Under the revised accounting standard, acquisition-related costs shall be accounted for as expenses in the periods in which the costs are incurred.

The above accounting standards and guidance for "transactions with noncontrolling interest," "acquisition-related costs" and presentation changes in the consolidated financial statements are effective for the beginning of the fiscal year beginning on or after April 1, 2015. Earlier application is permitted from the beginning of the fiscal year beginning on or after April 1, 2014, except for the presentation changes in the consolidated statement of income. In case of earlier application, all accounting standards and guidance above, except for the presentation changes, should be applied simultaneously. Either retrospective or prospective application of the revised accounting standards and guidance for "transactions with noncontrolling interest" and "acquisition-related costs" is permitted. In retrospective application of the revised standards and guidance for "transactions with noncontrolling interest" and "acquisition-related costs," accumulated effects of retrospective adjustments for all "transactions with noncontrolling interest" and "acquisition-related costs" which occurred in the past shall be reflected as adjustments to the beginning balance of capital surplus and retained earnings for the year of the first-time application.

In prospective application, the new standards and guidance for "transactions with noncontrolling interest" and "acquisitionrelated costs" shall be applied prospectively from the beginning of the year of the first-time application. The changes in presentation shall be applied to all periods presented in financial statements containing the first-time application of the revised standards and guidance.

The revised standards and guidance for "provisional accounting treatments for a business combination" are effective for a business combination which will occur on or after the beginning of the fiscal year beginning on or after April 1, 2015. Earlier application is permitted for a business combination which will occur on or after the beginning of the fiscal year beginning on or after April 1, 2014.

The Group expects to apply the revised accounting standards and guidance from the beginning of the fiscal year beginning on April 1, 2015, and is in the process of measuring the effects of applying the revised accounting standards and guidance in future applicable periods.

3. CASH AND CASH EQUIVALENTS

The reconciliation of cash and cash equivalents and cash and due from banks in the interim consolidated balance sheets as of September 30, 2014 and 2013 was as follows:

|  | Million     | s of yen  | U.S. dollars  |
|--|-------------|-----------|---------------|
| As of September 30,  | 2014        | 2013      | 2014          |
| Cash and due from banks  | ¥ 1,179,342 | ¥ 724,563 | \$ 10,793,906 |
| Interest-bearing deposits included in due from banks (except for due from the Bank of Japan) | (57,600)    | (101,444) | (527,185)     |
| Cash and cash equivalents  | ¥ 1,121,741 | ¥ 623,118 | \$ 10,266,721 |

# 4. OTHER MONETARY CLAIMS PURCHASED

(a) Other monetary claims purchased as of September 30, 2014 and March 31, 2014 consisted of the following:

|                  | Million        | U.S. dollars  |                |
|------------------|----------------|---------------|----------------|
|                  | Sept. 30, 2014 | Mar. 31, 2014 | Sept. 30, 2014 |
| Trading purposes | ¥ 43,709       | ¥ 51,259      | \$ 400,050     |

**6. MONETARY ASSETS HELD IN TRUST** 

(a) Monetary assets held in trust as of September 30, 2014 and March 31, 2014 consisted of the following:

|                  | Million        | Thousands of U.S. dollars |                |
|------------------|----------------|---------------------------|----------------|
|                  | Sept. 30, 2014 | Mar. 31, 2014             | Sept. 30, 2014 |
| Trading purposes | ¥ 56,360       | ¥ 67,954                  | \$ 515,836     |
| Other            | 128,515        | 131,163                   | 1,176,239      |
| Total            | ¥ 184,876      | ¥ 199,117                 | \$ 1,692,075   |

(b) The fair value and the unrealized loss which is included in net gain (loss) on monetary assets held in trust for trading purposes as of September 30, 2014 and March 31, 2014 were as follows:

|                  |            | Millions        | Thousands of U.S. dollars |                 |                |                 |  |
|------------------|------------|-----------------|---------------------------|-----------------|----------------|-----------------|--|
|                  | Sept.      | Sept. 30, 2014  |                           | 31, 2014        | Sept. 30, 2014 |                 |  |
|                  | Fair value | Unrealized loss | Fair value                | Unrealized loss | Fair value     | Unrealized loss |  |
| Trading purposes | ¥ 56,360   | ¥ 985           | ¥ 67,954                  | ¥ 3,012         | \$ 515,836     | \$ 9,019        |  |

(c) The carrying amount of monetary assets held in trust for other than trading purposes is the same as the acquisition cost as of September 30, 2014 and March 31, 2014.

7. SECURITIES

(a) Securities as of September 30, 2014 and March 31, 2014 consisted of the following:

|   | Million        | Thousands of U.S. dollars |                |
|---|----------------|---------------------------|----------------|
|   | Sept. 30, 2014 | Mar. 31, 2014             | Sept. 30, 2014 |
| Trading securities  | ¥ 116          | ¥ 131                     | \$ 1,067       |
| Securities being held to maturity   | 602,768        | 545,675                   | 5,516,827      |
| Securities available for sale:  |                |                           |                |
| Securities carried at fair value  | 901,172        | 895,444                   | 8,247,961      |
| Securities carried at cost whose fair value cannot be reliably determined | 67,933         | 69,757                    | 621,763        |
| Investments in unconsolidated subsidiaries and affiliates                 | 49,353         | 46,010                    | 451,709        |
| Total   | ¥ 1,621,344    | ¥ 1,557,020               | \$ 14,839,327  |

The above balances do not include securities held in connection with securities borrowing transactions with or without cash collateral, securities purchased under resale agreements or securities accepted as collateral for derivative transactions, where the Group has the right to sell or pledge such securities without restrictions. The balances of those securities as of September 30, 2014 and March 31, 2014 were ¥28,783 million (U.S.\$263,441 thousand) and ¥28,302 million, respectively. In addition, ¥39,197 million (U.S.\$358,751 thousand) and ¥38,571 million of those securities were further pledged as of September 30, 2014 and March 31, 2014, respectively.

The amount of guarantee obligations for privately-placed bonds (Paragraph 3 of Article 2 of the Financial Instruments and Exchange Act) included in securities as of September 30, 2014 and March 31, 2014 were ¥22,623 million (U.S.\$207,059 thousand) and ¥23,433 million, respectively.

7. SECURITIES (CONTINUED) CONSOLIDATED

(b) The amortized/acquisition cost and the fair values of securities (other than trading securities) as of September 30, 2014 and March 31, 2014 were as follows:

Note: "Other, primarily foreign debt securities" includes other monetary claims purchased whose fair value can be reliably determined.

Individual securities (except for those whose fair value cannot be reliably determined), other than trading securities, are written down when a decline in fair value is significant as compared to the cost of such securities since the decline in fair value is deemed to be other than temporary.

The amount written down is accounted for as an impairment loss. Impairment loss on such securities for the six months ended September 30, 2014 was ¥686 million (U.S.\$6,287 thousand), which consisted of ¥686 million (U.S.\$6,287 thousand) for Japanese corporate bonds.

Impairment loss on such securities for the fiscal year ended March 31, 2014 was ¥1,716 million, which consisted of ¥0 million for equity securities, ¥1,699 million for Japanese corporate bonds and ¥16 million for other securities.

To determine whether a decline in fair value is significant, the Group applies the following rule, by the obligor classification of the security issuer based on the Group's self-assessment guidelines:

| 7. SECURITIES (CONTINUED) | CONSOLIDATED |
|---------------------------|--------------|
|                           |              |

| Securities issued by "legally bankrupt," "virtually bankrupt" and "possibly bankrupt" obligors | The fair value of securities is lower than the amortized/acquisition cost             |
|--|---|
| Securities issued by "need caution" obligors   | The fair value of securities is 30% or more lower than the amortized/acquisition cost |
| Securities issued by "normal" obligors   | The fair value of securities is 50% or more lower than the amortized/acquisition cost |

"Legally bankrupt" obligors are those who have already gone bankrupt from a legal and/or formal perspective.

"Virtually bankrupt" obligors are those who have not yet gone legally or formally bankrupt but who are substantially bankrupt because they are in serious financial difficulties and are not deemed to be capable of restructuring.

"Possibly bankrupt" obligors are those who are not yet bankrupt but are in financial difficulties and are very likely to go bankrupt in the future.

"Need caution" obligors are those who require close attention because there are problems with their borrowings.

"Normal" obligors are those whose business conditions are favorable and who are deemed not to have any particular problems in terms of their financial position.

(c) Unrealized gain (loss) on available-for-sale securities as of September 30, 2014 and March 31, 2014 consisted of the following:

**8. LOANS AND BILLS DISCOUNTED** 

Loans and bills discounted as of September 30, 2014 and March 31, 2014 consisted of the following:

|                  | Million        | Millions of yen |                |
|------------------|----------------|-----------------|----------------|
|                  | Sept. 30, 2014 | Mar. 31, 2014   | Sept. 30, 2014 |
| Loans on deeds   | ¥ 3,619,576    | ¥ 3,625,948     | \$ 33,128,103  |
| Loans on bills   | 34,849         | 30,649          | 318,963        |
| Bills discounted | 3,116          | 5,684           | 28,527         |
| Overdrafts       | 681,079        | 657,547         | 6,233,567      |
| Total            | ¥ 4,338,622    | ¥ 4,319,830     | \$ 39,709,160  |

#### (a) Risk-monitored loans

Loans and bills discounted include loans to bankrupt obligors of ¥6,240 million (U.S.\$57,115 thousand) and ¥10,049 million as of September 30, 2014 and March 31, 2014, respectively, as well as nonaccrual delinquent loans of ¥128,223 million (U.S.\$1,173,562 thousand) and ¥177,786 million as of September 30, 2014 and March 31, 2014, respectively.

Nonaccrual delinquent loans include loans classified as "possibly bankrupt" and "virtually bankrupt" under the Group's self-assessment guidelines.

In addition to nonaccrual delinquent loans as defined, certain other loans classified as "substandard" under the Group's self-assessment guidelines include loans past due for three months or more.

Loans past due for three months or more consist of loans for which the principal and/or interest is three months or more past due but exclude loans to bankrupt obligors and nonaccrual delinquent loans. The balances of loans past due for three months or more as of September 30, 2014 and March 31, 2014 were ¥1,317 million (U.S.\$12,061 thousand) and ¥1,177 million, respectively.

Restructured loans are loans where the Group relaxes lending conditions, such as by reducing the original interest rate, or by forbearing interest payments or principal repayments to support the borrower's reorganization, but exclude loans to bankrupt obligors, nonaccrual delinquent loans or loans past due for three months or more. The outstanding balances of restructured loans as of September 30, 2014 and March 31, 2014 were ¥29,559 million (U.S.\$270,540 thousand) and ¥31,719 million, respectively.

#### (b) Loan participations

The total outstanding amounts deducted from the loan account for loan participations as of September 30, 2014 and March 31, 2014 were ¥12,656 million (U.S.\$115,836 thousand) and ¥14,439 million, respectively. This "off-balance sheet" treatment

is in accordance with guidelines issued by the JICPA. The total amounts of such loans in which the Bank participated were ¥9,585 million (U.S.\$87,730 thousand) and ¥21,864 million as of September 30, 2014 and March 31, 2014, respectively.

#### (c) Bills discounted

Bills discounted, such as bank acceptances bought, commercial bills discounted, documentary bills and foreign exchange contracts bought, are accounted for as financing transactions in accordance with Industry Audit Committee Report No. 24 issued by the JICPA, although the Group has the right to sell or pledge them without restrictions. The face amounts of such bills discounted held as of September 30, 2014 and March 31, 2014 were ¥3,199 million (U.S.\$29,281 thousand) and ¥5,875 million, respectively.

#### (d) Loan commitments

The Bank and certain of its consolidated subsidiaries establish credit lines for overdrafts and issue commitments to extend credit to meet the financing needs of customers. The unfunded amounts of these commitments were ¥3,616,582 million (U.S.\$33,100,698 thousand) and ¥3,746,826 million as of September 30, 2014 and March 31, 2014, out of which the amounts with original agreement terms of within one year or which were cancelable were ¥3,420,307 million (U.S.\$31,304,294 thousand) and ¥3,539,902 million as of September 30, 2014 and March 31, 2014, respectively. Since a large majority of these commitments expire without being drawn upon, the unfunded amounts do not necessarily represent future cash requirements. Many such agreements include conditions granting the Bank and its consolidated subsidiaries the right to reject the drawdown or to reduce the amount on the basis of changes in the financial circumstances of the borrower or other reasonable grounds.

In addition, the Bank obtains collateral when necessary to reduce credit risk related to these commitments.

9. FOREIGN EXCHANGES

Foreign exchange assets and liabilities as of September 30, 2014 and March 31, 2014 consisted of the following:

|                               | Million        | Millions of yen |       | sands of<br>dollars |
|-------------------------------|----------------|-----------------|-------|---------------------|
|                               | Sept. 30, 2014 | Mar. 31, 2014   | Sept. | 30, 2014            |
| Foreign exchange assets:      |                |                 |       |                     |
| Foreign bills bought          | ¥ 82           | ¥ 190           | \$    | 754                 |
| Foreign bills receivable      | 6,167          | 9,441           | í     | 6,447               |
| Due from foreign banks        | 14,723         | 16,024          | 13    | 34,758              |
| Total                         | ¥ 20,973       | ¥ 25,656        | \$ 19 | 91,959              |
| Foreign exchange liabilities: |                |                 |       |                     |
| Foreign bills payable         | ¥ 61           | ¥ 34            | \$    | 562                 |
| Due to foreign banks          | 2              | 2               |       | 22                  |
| Total                         | ¥ 63           | ¥ 37            | \$    | 584                 |

10. OTHER ASSETS

Other assets as of September 30, 2014 and March 31, 2014 consisted of the following:

|  | Million        | Millions of yen |                |
|--|----------------|-----------------|----------------|
|  | Sept. 30, 2014 | Mar. 31, 2014   | Sept. 30, 2014 |
| Accrued income                                 | ¥ 14,673       | ¥ 14,875        | \$ 134,301     |
| Prepaid expenses                               | 4,147          | 3,704           | 37,959         |
| Fair value of derivatives                      | 124,765        | 123,488         | 1,141,910      |
| Accounts receivable                            | 92,517         | 46,560          | 846,769        |
| Installment receivables                        | 437,271        | 421,920         | 4,002,119      |
| Security deposits                              | 13,242         | 14,072          | 121,202        |
| Suspense payments                              | 18,586         | 21,434          | 170,109        |
| Margin deposits for futures transactions       | 1,763          | 1,481           | 16,141         |
| Cash collateral paid for financial instruments | 6,880          | 4,633           | 62,971         |
| Other  | 69,907         | 72,792          | 639,828        |
| Total  | ¥ 783,755      | ¥ 724,963       | \$ 7,173,309   |

Installment receivables in other assets as of September 30, 2014 and March 31, 2014 include credits to bankrupt obligors of ¥153 million (U.S.\$1,402 thousand) and ¥496 million, nonaccrual delinquent credits of ¥8,452 million (U.S.\$77,363 thousand) and

¥9,154 million, credits past due for three months or more of ¥378 million (U.S.\$3,466 thousand) and ¥271 million, and restructured credits of ¥587 million (U.S.\$5,374 thousand) and ¥731 million, respectively.

# 11. PREMISES AND EQUIPMENT

Premises and equipment as of September 30, 2014 and March 31, 2014 consisted of the following:

|                                  | Millions of yen |               | Thousands of U.S. dollars |

| Beginning of period                  | 2,750,346               | 96,427                   |
| Increase                             | _                       | _                        |
| Decrease                             | _                       | _                        |
| End of period                        | 2,750,346               | 96,427                   |

<sup>1</sup> The increase of shares is associated with the acquisition of fractional shares.

Fixed dividend rates shown in this column are to be changed to floating dividend rates on the dividend payment date shown in "Floating dividend start date" column.

2 These preferred securities are redeemable on any dividend payment date shown in this column or thereafter, at a price equal to the liquidation preference together with any dividends otherwise payable, subject to the prior approval of the Financial Services Agency of Japan ("FSA"). The preferred securities issued by Shinsei Finance IV (Cayman) Limited were fully redeemed in July 2014.

3 The preferred securities issued by Shinsei Finance II (Cayman) Limited are redeemable on dividend payment date shown in this column or on each dividend payment date falling at ten year intervals thereafter, at a price equal to the liquidation preference together with any dividends otherwise payable, subject to the prior approval of the FSA

25. STOCK ACQUISITION RIGHTS

The Bank issues stock acquisition rights as a stock option plan to directors, executive officers and employees of the Bank and its subsidiaries.

Stock acquisition rights provide eligible individuals (the "holders") with the right to purchase common stock of the Bank without any cash consideration at an exchange rate of one thousand common shares to one stock acquisition right. The amount of money to be paid upon exercising stock acquisition rights is the amount calculated by multiplying the payment amount per share (the "exercise price") by the number of common shares that can be purchased through the exercise of one stock acquisition right. Conditions are stipulated in the "Agreement on the Grant of Stock Acquisition Rights" entered into between the Bank and the holders to whom stock acquisition rights were allotted based on the resolution of the annual general meeting of shareholders and the meetings of the Board of Directors which resolves the issuance of stock acquisition rights subsequent to the shareholders' meeting.

In December 2005, the ASBJ issued "Accounting Standard for Stock Options" and related guidance, which requires companies to recognize compensation expense for stock acquisition rights based on the fair value at the date of grant and over the vesting periods for stock acquisition rights newly granted on and after May 1, 2006.

There were no stock acquisition rights issued during the six months ended September 30, 2014 and 2013.

- (a) There were no stock-based compensation expenses for the six months ended September 30, 2014 and 2013.
- (b) Amount of profit by non-exercise of stock options for the six months ended September 30, 2014 and 2013 were as follows:

|                          | Millions       | Millions of yen |                | Thousands of U.S. dollars |
|--------------------------|----------------|-----------------|----------------|---------------------------|
|                          | Sept. 30, 2014 | Sept. 30, 2013  | Sept. 30, 2014 |                           |
| Other gains (losses) net | ¥ 7            | ¥ 16            | \$ 66          |                           |

26. NET TRADING INCOME (LOSS)

CONSOLIDATED

Net trading income (loss) for the six months ended September 30, 2014 and 2013 consisted of the following:

|  | Millions of yen |         | Thousands of U.S. dollars |
|--|-----------------|---------|---------------------------|
| Six months ended September 30,                                   | 2014            | 2013    | 2014                      |
| Income (loss) from trading securities                            | ¥ 2,694         | ¥3,146  | \$ 24,659                 |
| Income (loss) from securities held to hedge trading transactions | (238)           | (898)   | (2,185)                   |
| Income (loss) from trading-related financial derivatives         | 2,925           | 4,901   | 26,772                    |
| Other, net   | 102             | (159)   | 939                       |
| Total  | ¥ 5,483         | ¥ 6,990 | \$ 50,185                 |

# 27. OTHER BUSINESS INCOME (LOSS), NET CONSOLIDATED

"Other, net" in other business income (loss), net, for the six months ended September 30, 2014 and 2013 consisted of the following:

32. SEGMENT INFORMATION

#### (A) SEGMENT INFORMATION

#### (a) DESCRIPTION OF REPORTABLE SEGMENTS

Our reportable segments are components of the Group about which separate financial information is available and such information is evaluated regularly by the Executive Committee in deciding how to allocate resources and in assessing performance.

The Group provides a wide variety of financial products and services to institutional and individual customers through our Institutional Group, Global Markets Group and Individual Group, respectively. These groups consist of operating segments which provide their respective financial products and services. The Institutional Group consists of the "Institutional Business Sub-Group," "Principal Transactions Sub-Group," "Showa Leasing" and "Other Institutional Group," and the Global Markets Group consists of the "Financial Institutions Sub-Group," "Markets Sub-Group," and "Other Global Markets Group" as reportable segments. The Individual Group consists of "Retail Banking Sub-Group," "Shinsei Financial" and "APLUS FINANCIAL." Also, the business and operations excluding any of the Institutional Group, the Global Markets Group, and the Individual Group are classified as the Corporate/Other. The "Treasury Sub-Group" in the Corporate/Other is a reportable segment.

In the Institutional Group, the "Institutional Business Sub-Group" provides financial products, financial services and advisory services for corporate banking business and public sector finance, real estate finance, such as nonrecourse loans, financial products and services for the real estate and construction industries, specialty finance such as M&A finance, and trust business. The "Principal Transactions Sub-Group" provides financial products and services related to credit trading. "Showa Leasing" primarily provides leasing related financial products and services. The "Other Institutional Group" consists of asset-backed investment and other products and services in the Institutional Group.

In the Global Markets Group, the "Financial Institutions Sub-Group" provides financial products and services for financial institutions business. The "Markets Sub-Group" is engaged in foreign exchanges, derivatives, equity-related transactions and other capital markets transactions. The "Other Global Markets Group" consists of Shinsei Securities' businesses, asset management, wealth management, and other products and services in the Global Markets Group.

In the Individual Group, the "Retail Banking Sub-Group" provides financial products and services for retail customers, "Shinsei Financial" which consists of the business of Shinsei Financial Co., Ltd., SHINKI Co., Ltd. and "Shinsei Bank Card Loan-Lake" in the Bank provides consumer finance, and "APLUS FINANCIAL" provides installment sales credit, credit cards, guarantees and settlement services. The "Other" consists of profit and loss attributable to the Consumer Finance Sub-Group and other subsidiaries.

In the Corporate/Other, the "Treasury Sub-Group" is engaged in operations ALM and capital fund raising.

On April 1, 2014, we implemented organizational changes. The Business Management Division of the "Other Institutional Group" in the Institutional Group was abolished and its business related to the Institutional Group transferred into the Institutional Business Division of the "Institutional Business Sub-Group." As a result of this organizational change, classification of reportable segments was changed, and "REVENUE, PROFIT (LOSS), ASSETS, LIABILITIES AND OTHER ITEMS BY REPORTABLE SEGMENTS" for the six months ended September 30, 2013 is presented based on the new classification of reportable segments.

# (b) METHODS OF MEASUREMENT FOR THE AMOUNTS OF REVENUE, PROFIT (LOSS), ASSETS, LIABILITIES AND OTHER ITEMS BY REPORTABLE SEGMENTS

The accounting policies of each reportable segment are consistent to those disclosed in Note 2, "SUMMARY OF SIGNIFI-CANT ACCOUNTING POLICIES," except for interest on inter-segment transactions and indirect expense.

Interest on inter-segment transactions is calculated using an inter-office rate. Indirect expense is allocated, based on the predetermined internal rule, to each reportable segment according to the budget which is set at the beginning of the fiscal year.

Notes: 1 "Revenue," which represents gross operating profit under our management reporting, is presented as a substitute for sales in other industries. "Revenue" is defined as the total of net interest income, net fees and commissions, net trading income and net other business income on the management reporting basis. "Revenue" represents income and related cost attributable to our core business.

2 "Expenses" are general and administrative expenses deducting amortization of goodwill and intangible assets acquired in business combinations, amortization of net actuarial gains or losses of retirement benefit cost and lump-sum payments.

3 "Net Credit Costs (Recoveries)" consists of provision/reversal of reserve for credit losses, losses on write-off/sales of loans and recoveries of written-off claims.

4 "Segment Assets" consists of other monetary claims purchased, trading assets, monetary assets held in trust, securities, loans and bills discounted, lease receivables and leased investment assets, installment receivables, tangible leased assets, influeding negotiable certificates of deposits, including negotiate and certificates of deposits, including negotiate and certificates of deposits, including negotiate and certificates of

<sup>1</sup> Carrying amounts of Other monetary claims purchased, Monetary assets held in trust, and Lease receivables and leased investment assets are presented as the amount net of reserve for credit losses because they

<sup>1</sup> Carrying amounts of Other monetary claims purchased, Monetary assets neu in rust, and Lease receivables and readed introducing are immaterial.

2 For consumer loans held by consolidated subsidiaries included in Loans and bills discounted, reserve for losses on interest repayments of ¥185,466 million (U.S.\$1,697,476 thousand) and ¥208,201 million was recognized for estimated losses on reimbursements of excess interest payments as of September 30, 2014 and March 31, 2014, respectively, which included the reserve for losses on interest repayments that have a possibility of being appropriated for loan principal in the future.

3 Derivative instruments include derivative transactions both in trading assets and liabilities, and in other assets and liabilities. Derivative instruments are presented as net of assets and liabilities and presented with () when a liability stands on net basis.

4 Contract amount for guarantee contracts presents the amount of "Acceptances and guarantees" on the consolidated balance sheets.

# 33. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES (CONTINUED)

CONSOLIDATED

(Note 1) Valuation methodologies for financial instruments

#### Assets:

#### (1) Cash and due from banks

The fair values of due from banks with no maturities approximate carrying amounts. For due from banks with maturities, the fair values approximate carrying amounts because most of them are with short maturities of six months or less.

(2) Call loans and (4) Receivables under securities borrowing transactions

The fair values approximate carrying amounts because most of them are with short maturities of three months or less.

#### (3) Receivables under resale agreements

The fair values of the receivables under resale agreements with maturity of three months or less approximate carrying amounts because of their short-term maturity. The fair values of the receivables under resale agreements with maturity of more than three months are determined by discounting contractual cash flows in case of the transactions with fixed interest rate, or expected cash flows based on the forward rate in case of the transactions with floating interest rate, using the risk free rate adjusted to account for credit risk (after consideration of collateral) with credit default swap (CDS) spreads etc. corresponding to internal credit rating of each borrower.

# (5) Other monetary claims purchased

The fair values are measured at quoted prices from third parties, or determined using the discounted cash flow method.

#### (6) Trading assets

The fair values are measured at market prices or quoted prices from third parties, or determined using the discounted cash flow method.

# (7) Monetary assets held in trust

The fair values are determined using the discounted cash flow method based on the characteristics of the components of the entrusted assets.

# (8) Securities

The fair values of marketable equity securities are measured at closing prices on exchanges. The fair values of bonds and mutual funds are measured at market prices or quoted prices from third parties, or determined using the discounted cash flow method.

#### (9) Loans and bills discounted

The fair values of loans and bills discounted with fixed interest

rate are determined by discounting contractual cash flows, and the fair values of loans and bills discounted with floating interest rate are determined by discounting expected cash flows based on the forward rates, using the risk free rate adjusted to account for credit risk (after consideration of collateral) with CDS spreads etc. corresponding to internal credit rating of each borrower. The fair values of housing loans are determined by discounting expected cash flows at the rates that would be applied for the new housing loans with the same terms at the interim consolidated balance sheet date. The fair values of consumer loans are determined by discounting expected cash flows that reflect expected loss at the rates that consist of the risk free rate and certain costs, by a group of similar product types and customer segments.

For loans to obligors "legally bankrupt," "virtually bankrupt" and "possibly bankrupt," a reserve is provided based on the discounted cash flow method, or based on amounts expected to be collected through the disposal of collateral or execution of guarantees, so that the carrying amount net of the reserve is a reasonable estimate of the fair values of those loans.

# (10) Lease receivables and leased investment assets

The fair values are primarily determined by discounting contractual cash flows at the rates that consist of the risk free rate, credit risk and certain costs, by a group of major product categories.

#### (11) Installment receivables

The fair values are primarily determined by discounting expected cash flows that reflect the probability of prepayment at the rates that consist of the risk free rate, credit risk and certain costs, by a group of major product categories.

#### Liabilities:

# (1) Deposits, including negotiable certificates of deposit

The fair values of demand deposits, such as current deposits and ordinary deposits are recognized as the payment amount at the interim consolidated balance sheet date. The fair values of the deposits with maturity of six months or less approximate carrying amounts because of their short-term maturity.

The fair values of time deposits are determined by discounting the contractual cash flows at the rates that would be applied for the new contracts with the same terms at the interim consolidated balance sheet date.

#### (2) Debentures and (8) Corporate bonds

The fair values of marketable debentures and corporate bonds are measured at market prices.

The fair values of nonmarketable corporate debentures and corporate bonds under the Medium Term Note program are determined by discounting expected cash flows at the actual

#### 33. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES (CONTINUED)

average funding rates of corporate time deposits etc. funded in the past three months of the interim consolidated balance sheet date. The fair values of retail debentures are determined by discounting contractual cash flows at the latest actual funding rate.

The fair values of step-up callable subordinated bonds are determined by discounting expected cash flows which reflect the probability of early redemption at the rates that consist of the risk free rate and the CDS spread of the Bank.

(3) Call money and (4) Payables under securities lending transactions The fair values approximate carrying amounts because most of them are with short maturities of three months or less.

#### (5) Trading liabilities

The fair values are measured at market prices.

#### (6) Borrowed money

The fair values of borrowed money with fixed interest rates are primarily determined by discounting contractual cash flows (for borrowed money hedged by interest rate swaps which meets specific matching criteria, the contractual cash flows include the cash flows of the interest rate swaps), and the fair values of borrowed money with floating interest rates are determined

by discounting expected cash flows on forward rates, at the funding rates that reflect the credit risk of the borrower.

The fair values of step-up callable subordinated borrowings are determined by discounting expected cash flows that reflect the probability of early redemption at the rates that consist of the risk free rate and the CDS spread of the Bank.

#### (7) Short-term corporate bonds

The fair values approximate carrying amounts because most of them are with short maturities of six months or less.

#### Derivative instruments:

The fair values are primarily measured at closing prices on exchanges or determined using the discounted cash flow method or option pricing models.

#### Other:

#### Guarantee contracts

The fair values are determined by discounting the amount of difference between the original contractual cash flows and the expected cash flows that would be applied for the new contracts with the same terms at the risk free rate.

(Note 2) Carrying amount of the financial instruments whose fair value cannot be reliably determined

|   | Million        | Millions of yen |                |  |  |  |
|---|----------------|-----------------|----------------|--|--|--|
|   | Sept. 30, 2014 | Mar. 31, 2014   | Sept. 30, 2014 |  |  |  |
| Equity securities without readily available market price <sup>1,2</sup> | ¥ 10,398       | ¥ 11,501        | \$ 95,177      |  |  |  |
| Investment in partnerships and others <sup>1,2</sup>                    | 61,931         | 63,292          | 566,829        |  |  |  |
| Total   | ¥ 72,330       | ¥ 74,793        | \$ 662,006     |  |  |  |

<sup>1</sup> Equity securities without readily available market price are out of the scope of fair value disclosure because their fair values cannot be reliably determined. Investments in partnerships and others, the assets of which comprise equity securities without readily available market price, are out of the scope of fair values disclosure because fair values of those investments cannot be reliably determined.

<sup>2</sup> For the six months ended September 30, 2014 and for the fiscal year ended March 31, 2014, impairment losses on equity securities without readily available market price of ¥575 million (U.S.\$5,263 thousand) and ¥27 million, and on investment in partnerships and others of ¥1 million (U.S.\$11 thousand) and ¥33 million were recognized, respectively.

# **34. DERIVATIVE FINANCIAL INSTRUMENTS**

# (A) DERIVATIVE TRANSACTIONS TO WHICH HEDGE ACCOUNTING WAS NOT APPLIED

The fair values of derivatives on the interim consolidated balance sheets as of September 30, 2014 and March 31, 2014 are adjusted for credit risk by a reduction of ¥918 million (U.S.\$8,404 thousand) and ¥623 million, respectively, and also adjusted for liquidity risk by a reduction of ¥1,080 million (U.S.\$9,888 thousand) and ¥1,102 million, respectively.

Regardless of this accounting treatment, the reduction of those risks is not reflected in the fair values shown in the following tables.

#### (a) INTEREST RATE-RELATED TRANSACTIONS

Interest rate-related transactions as of September 30, 2014 and March 31, 2014 were as follows:

|   |                | Millions of yen |      |                       |    |           |               |                       |                             |           |   |                         |   |           |   |                         |

#### Notes:

- (1) Derivatives included in the table above were measured at fair value and the unrealized gains and losses were recognized in income.
- (2) The fair values of listed transactions represent the closing price on the Tokyo Financial Exchange and other exchanges. The fair values of over-the-counter transactions are calculated primarily by using the discounted cash flow method or option pricing models.

# Notes:

- (1) Derivatives included in the table above were measured at fair value and the unrealized gains and losses were recognized in income.
- (2) The fair values are calculated primarily by using the discounted cash flow method or option pricing models.

| Total                          |              |                         | \$ (74,778) |           |                         |            |  |  |

- (1) Most of the hedged items are interest-bearing assets and liabilities such as loans and bills discounted, securities available for sale (bonds) and deposits, including negotiable certificate of deposit.
- (2) Interest rate swaps are primarily accounted for using deferral method in accordance with Industry Audit Committee Report No.24 of the JICPA.
- (3) The fair values are calculated primarily by using the discounted cash flow method.

CONSOLIDATED

Interest rate swaps which meet specific matching criteria as of September 30, 2014 and March 31, 2014 were as follows:

|                                |           |                         | Million     | s of yen |                         |            |

| Receive floating and pay fixed | \$ 57,889 | \$ 24,941               | \$ <b>—</b> |          |                         |            |

#### Notes:

- (1) The hedged item is borrowed money.
- (2) Interest rate swaps which meet specific matching criteria are accounted for as component of hedged borrowed money. Therefore, the fair value of those interest rate swaps is included in the fair value of borrowed money in fair value information shown in Note 33 "FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES."

#### (b) CURRENCY-RELATED TRANSACTIONS

Currency-related transactions which are accounted for using the deferral method as of September 30, 2014 and March 31, 2014 were as follows:

|                |            |                         | Millions   | s of yen |                         |            |

# CAPITAL ADEQUACY REQUIREMENT (BASEL ACCORD) PILLAR III (MARKET DISCIPLINE) DISCLOSURE

This chapter describes information that needs to be disclosed in disclosure documents related to the reported business year pursuant to the Financial Services Agency Notice No. 15 of March 23, 2007 (Basel Accord - Pillar III: Market Discipline) as the "matters concerning the status of capital adequacy separately prescribed by the Commissioner of the Financial Services Agency" as provided in Article 19-2 (1) (v) (d) of the Ordinance for Enforcement of the Banking Act (Ministry of Finance Ordinance No. 10 of 1982).

"Accord" in this chapter refers to the Financial Services Agency Notice No. 19 dated March 27, 2006 (Basel Accord - Pillar I: Minimum Capital Ratio).

#### **COMPOSITION OF CAPITAL DISCLOSURE (CONSOLIDATED)**

| Shinsei Bank and subsidiaries   | Millions of yen (except percentage |  |
|---|------------------------------------|--|
| As of September 30, 2014 Items  | Basel III<br>(Domestic Standard)   | Amounts excluded<br>under transitional<br>arrangements |
| Core capital: instruments and reserves (1)  |                                    |  |
| Directly issued qualifying common share capital or preferred share capital  |                                    |  |
| with a compulsory conversion clause plus related capital surplus and retained earnings  | ¥ 689,589                          |  |
| of which: capital and capital surplus   | 591,666                            |  |
| of which: retained earnings   | 170,482                            |  |
| of which: treasury stock (–)  | (72,558)                           |  |
| of which: earning to be distributed (–)   | _                                  |  |
| of which: other than above  Accumulated other comprehensive income (amount allowed to be included in Core capital)                  | 1,234                              | Y (4 622)  |
| of which: foreign currency translation adjustment   | 1,234                              | ¥ (4,623)  |
| of which: amount related defined benefit  | 1,234                              | (4,623)  |
| Stock acquisition right to common shares and preferred shares with a compulsory conversion clause                                   | 1,214                              | (4,023)  |
| Adjusted minority interests (amount allowed to be included in Core capital)   | 1,214                              |  |
| Total of reserves included in Core capital: instruments and reserves  | 2,476                              |  |
| of which: general reserve for loan losses included in Core capital  | 2,476                              |  |
| of which: eligible provision included in Core capital   |                                    |  |
| Eligible noncumulative perpetual preferred shares subject to transitional arrangements  |                                    |  |
| (amount allowed to be included in Core capital: instruments and reserves)   | _                                  |  |
| Eligible capital instruments subject to transitional arrangements   |                                    |  |
| (amount allowed to be included in Core capital: instruments and reserves)   | 158,967                            |  |
| Capital instruments issued through measures for capital enhancement by public institutions  | 100,000                            |  |
| (amount allowed to be included in Core capital: instruments and reserves)   | _                                  |  |
| Land revaluation excess after 55% discount  |                                    |  |
| (amount allowed to be included in Core capital: instruments and reserves)   | _                                  |  |
| Minority interests subject to transitional arrangements   |                                    |  |
| (amount allowed to be included in Core capital: instruments and reserves)   | 4,467                              |  |
| Core capital: instruments and reserves (Å)  | ¥ 857,949                          |  |

2 As of September 30, 2014, in total, the Deposit Insurance Corporation and the Resolution and Collection Corporation hold 469,128,888 common shares or 17.67% of Shinsei's outstanding common shares, excluding treasury shares.

### WEBSITE

Our English and Japanese websites provide a wide range of corporate data as well as information for individual and institutional customers and investors.

#### **INDIVIDUAL**

#### http://www.shinseibank.com/english/

The website for individual customers provides information on our comprehensive retail account, PowerFlex. Customers can log on to our Internet banking service, Shinsei PowerDirect, submit requests for information on PowerFlex and apply to open an account. Product offerings, campaigns, branch and ATM information, and detailed explanations on foreign currency deposits and investment trusts are covered here.

#### **INSTITUTIONAL**

#### http://www.shinseibank.com/institutional/en/

This website provides information on our products and services for institutional customers, as well as the various solutions provided to customers based upon their business area, company lifecycle stage and company needs.

Additionally, information regarding the Bank's undertakings in its "Venture Banking Initiative," ("VBI") is available in the form of interviews with customers. Through the VBI the Bank is working proactively to contribute to the growth of its customers, the economy, society and regional areas. Information regarding branches, affiliates and market reports (Japanese language only) is also available.

#### CORPORATE/IR

#### http://www.shinseibank.com/corporate/en/

The Corporate/IR website contains information on our corporate and management profiles, history, medium-term management plan, CSR initiatives and corporate governance. It also provides our news release, equity- and debt-related information, financial information and IR calendar.
